Hey! This document has been decanonized. But you can still read on, just keeping this in mind:

1. Don't take the earlier Q&As (Jan - early May) as fact anymore. Those were very early in the Mythos' life and may not reflect Alex's plans for the series anymore.
2. Some hints for future videos may be located in later Q&As. (late May - present)
3. You don't have to read the document in order. You can jump around and sample.

I hope you have as much fun reading this as much I enjoyed putting it together for you!

Monument Mythos Q&A Session - 1.30/31.21 - Compiled by AntRoot#3390

Hello, I have recently uploaded Lauren Arnoldson's video. I am open to questions.

Q&A

How has your day been?
I've been well, I hope you both have been too.

I was just wondering if there is like, if at some point, some characters will find tapes of other mysteries or some shit?
The Arnoldson family has repeatedly encountered anomalies.

They've appeared in three installments.

Do you have an exact date for when Lauren's film was grabbed?
I cannot say for certain, as the file has been duplicated many times. I believe I have a third generation copt of Lauren's video.

[Unprompted?]
The Estate of O.M. Gallagher places their photographs in the early twentieth century. From 1890 to 1940.

Where do Canyonggalans get vinegar in the Grand Canyon?
The Canyon Crowns do not produce the vinegar.

Is one of these motherfuckers an Arnoldson? [image of the 19 Washington Absentees]
The missing Washington Absentee's identity will not be disclosed at this time.

However, it is not an Arnoldson.

What does Mister Squirrel have to do with it?
Mister Squirrel belongs to a genus of ground squirrels in the family Sciuridae.

…according to Lauren's father at least. I have my suspicions.

What does third generation mean?
I have the third copy of the video. There were prior series of copies.

Does Lauren's father have a giant board of photos with red string on it?
He has entertained the idea. He has piles of clipboards with papers in organized groups around the living room.

I highly suggest you hold off on recording the findings I disclose in this server. It is primarily assumption with half-baked evidence if it has no basis in the series. (i.e. the lifestyle of Lauren Arnoldson's father)

Are there any anomalies in Yellowstone?
There are.

I'd estimate that vid was taken in 2009. [referring to CanyonCrown]
It is.
Which would make Lauren a young adult by now?
Possibly.

[Sorta unprompted]
The Angel's identity will not be disclosed at this time. However, an Arnoldson is not present in AirForceOneAngel.

There is one thing I'd like to note. The footage at the end of RockefellerTreeTragedy is from the late 1980s. The "GE" logo did not appear on 30 Rock until General Electric

acquired the rights to decorate the building. It is not footage from Virginia's peculiar experience. Color footage was in its infancy in the early 1930s.

Has the AIRFORCEONEANGEL ever been spotted in Air Force 2 or Marine 1?
Not the AirForceOneAngel, no.

[Also, a bit weirdly prompted]
Mister Rockefeller was heavily involved in the Hawaii situation at the turn of the century.

What's the music of AIRFORCEONEANGEL?
The titles of those tracks have significance in the Mythos. As frustrating as it may seem, I cannot disclose them as they provide insight which would be most enjoyable to obtain via exploration of the internet.

Think of them as easter eggs.

Mister Rockefeller was so influential in the process of statehood that they named a major city after him. Rockefeller, Hawaii is the second largest city in Hawaii.
Not quite. He was against annexation. Mister Rockefeller was a very influential supporter of nature preservation.

Is the 1919 Grand Canyon date the asme as the Deaniverse?
I have not confirmed its establishment year. I am in Livorno at the moment with my mind set on other matters.

Alex is Italian :eyes:
I am not Italian.

Did the Arnoldsons ever meet any of the 20 (19) absentees?
Not in person, no.

Honestly a monument in my state would be sick but we don't got shit besides the arches.
Funny you mention that.

———

It has been a wonderful time speaking with you all. Please continue enjoying the Monument Mythos. Thank you all and have a fantastic night. I will answer a few more questions in the morning and afternoon.

———

How did Lauren's classmates react to her presentation?
Lauren did show her video to her class. Few cried, most stood silent. No one laughed.

Can we have more clarification on how the LibertyLurker renovations for sustenance worked?
Difficult to say, especially since ST-1.8084 is the only publicly disclosed record of the renovations. I have recently received a few more blueprints regarding similar monuments and it does appear to suggest that the renovations were meant to further accommodate the growing needs of the subject.
Has the government tried to stop you from showing this footage?
Certain individuals within it have. Though most individuals seemingly don't mind the leaks, likely because they were never aware of the situations in the first place. Typically older military officials have sent cease-and-desist orders, as well as older Congressmen.

What is Lauren doing as of 2020?
Lauren's whereabouts are currently unknown.

How long did it take to get all those spikes off of Mount Rushmore and unscrew the faces?

Few have been permitted to see the Rushmore monument since the outbreak. It is difficult to ascertain. Though the extent of the damage suggests that a major face-lift was necessary.

How many attempts have been made to step foot on some of the Alcatrazoisified islands after the Attack?

Many.

Where is the best vacation spot in the US of A? (no budget)

I recommend Century Tower at the University of Florida.

Do Virginia's 10 friends have definite last names?

They did, though records show that they were inexplicably changed after the 1934 accident at Rockefeller Plaza.

Why did you decide to use Movie Maker for this video?

That's a question for Lauren.

Alex, what is Lauren's father's preferred form of cataloging information?

He frequently uses clipboards and rubber bands to organize his evidence, he places stacks of papers in specifically labelled sections of the living room. Though, last time I visited, he had moved all his work into his office.

Wait, dumb question, you sound very close to the Arnoldson family/the father and Lauren…. are YOU an Arnoldson, or related to one of the family members or just a family acquaintance?

I've contacted the Arnoldsons on numerous occasions, so you could say we are acquaintances now.

Alex, was there any media-disagreements during Dean's presidency?
Not much of it was televised, most disagreements were voiced in conservative news journals and newspaper opinion pieces.

Alex, why did you delete all your other videos like Buffalo Roach and Gein's Hardware?
They were not deleted, they have been marked unlisted. Partly due to excess speculation that they were connected to the Mythos, and partly due to my own preferences for my work's appearance. However, no need to fret, both properties will be remade into far better pieces in the future. Think of the memory of those videos as being exclusive to those who followed my work from the very start.

What did Lauren's classmates thing of mister squirrel?
The teacher established that Mr. Squirrel was the only thing allowed to be spoken of in regards to Lauren's video.

Alex, what was Dean's 2nd inaugural address like?
Dean's 2nd inaugural was captivating as usual. He had a way with the audience.

Who ran against Dean in 1972? (if anybody dared to take on such a task)
Her name escapes me at the moment.

This may already be answered, but how old was Virginia during the Rockefeller Incident?
Somewhere between 8 and 13.

Are the incidents of Washington Wormhole and Liberty Lurker well known to the public?
Some aspects are, yes.

Was there a Lincolnlooker during dean's terms? if so, did he know about it?
Presidents assign Lincolnlookers, the identities of whom are generally kept secret.

What exactly IS the liberty lurker, could it be another special tree?
It is a vague term indeed, and it possibly could be. It could possibly be many things.

Alex, what state did Dean's 1972 opponent come from?
Again, I am unsure since their name escapes me. Apologies.

Alex, how did you meet the Arnoldsons, and furthermore, what made you interested in the monument anomalies?
I first encountered the Arnoldsons through a phone call inquiring about the Maya Arnoldson recording. I first became interested when I myself experienced a monument anomaly.
Explain?
I will not disclose my own personal experiences publicly.

Another question about the Alcatraz Attack, how big is the main island now?
It is no longer an island. It is known as the Alcatraz Zone.

And it has a population.

How many electoral votes does the Alcatraz zone have?
It did not change the electoral college as much as one would think.

Did Dean hold any previous office before becoming president?
He did not. He did play a few very famous movie roles shortly before running for office.
Did he hold any office after his 2 terms?
No. He would serve a few days into 1977, wouldn't he? Until January 20, 1977. I don't believe 1977 is a date I've researched yet, I would have to review my records.

Also what is the exact population of the Alcatraz Zone?
The exact population has not been recorded.

Are there any anomalies on Route 66?
Funny you ask.

There's gotta be an anomaly for the liberty bell
There is.

[Unprompted]
The Everglades and Disney will be explored. I'm not sure whether this has been disclosed, but the bulk of my studies takes place in Florida. I have an office in Alachua County.

I think anything Disney related would have BLACKSUNDAY in its name.
Are you familiar with Payne's Prairie?

Any anomalies in North Carolina?
Yes.
What anomalies?
It will be disclosed in time.

Also have any anomalies been spotted in any Mexican states or Canadian provinces?
Yes.

Oh, I just had a random thought, is there any missing, different named, or extra state in the deaniverse? Like, is there 51 states or a state that's not there in the deaniverse, maybe a state is a little bigger than our universe?
Yes.

If you want to or remember, whats the state change?
Hawaii, and several American territories.

Alex, are there any boundary differences in the contiguous united states in the Deaniverse? (besides the manifest destiny of islands)
None within the continental U.S.

Alex, what first inspired you, or gave you the idea to create the MYTHOS series?
Certain details of the Trump administration inspired me to begin documentation.

Alex, are the current whereabouts of the Liberty statue known? (in AIRFORCEONEANGEL its missing)
Unknown.

Has the Washington Monument popped back up after it presumably disappeared during the 2003 vandalism incidents?
Re-construction efforts have been sporadic.

———

Thank you for all the questions. I will sign-off for now, please stay safe and have an excellent day. Stay tuned for more.

Monument Mythos Q&A - 2.07.21 - Compiled by AntRoot#3390

From 5 to 7 PM EST, I will be answering any questions regarding the Monument Mythos.

Q&A

What's the next monument?
It's up north, on the east coast.
Plymouth rock?
Not quite, but Plymouth will be explored eventually.

How close was the 1972 election?
It wasn't unanimously one-sided. There will always be those who'll support other candidates, despite the circumstances.

Are there any different/unique religions in the monument mythos universe that don't exist in our universe?
There most certainly are.

Were there any leaks/follow-ups on the alleged Washington body double story?
Yes.

Are there any wars in the Deaniverse that turned out differently than ours, if so, which ones? (if you are cool with telling)
WWII and Vietnam have been altered. The circumstances of other skirmishes have also been changed. There is one additional war that is not present in our timeline.
A major one.

Alex, Robert Kennedy isn't killed in the ’68 primaries in the Deaniverse, did JFK live out his full term(s)?

JFK was not killed. He also did not live out his full terms. I haven't researched the period 1960 to 1968 as thoroughly as I should have. I But I do plan to explore it some time.

When was America discovered and who did discover America in the monument mythos universe?

America was never "discovered." Neither in this timeline or the next. Just as Neil Armstrong never "discovered" the Moon. But the identity of the first non-indigenous man to set foot on American soil is subject to controversy.

I kinda understand what you meant, I just meant the pilgrims or whoever.

It is somewhat the same, aside from a few changes. The Mayflower existed.

So, explain. What events have changed in the Second World War and Vietnam Conflict?

It will be explored in the future.

Hey, do you think that alternate universes exist?

I do.

Do you believe people or being from other universes can connect or end up in ours or others?

I believe it is highly unlikely. But I believe there are layers to every universe, and things can permeate through. That being said, whether the activity is intentional or accidental is unknowable.

Is it true that Dean made it legal for Americans to have a good time unlike that stooge Nixon?

Nixon wasn't too bad. He was strange, but not a complete bummer. He could have a good time with the right crowd. He was easily swayed.

He did drive a mean race-track.
Nixon and Dean loved to race. Dean was exceptionally fast.

Alex, will the Forest Purgatory be brought up again?
Yes.

What happened to Mr. Squirrel?
I do believe his kind will make more appearances in the future.

Is there an unique interesting conspiracy theory that has a lot of traction in the MM universe, maybe ignoring something like people who made/ believed in theories about the monuments and other things shown here. like some theory that only exists in the MM universe and has a lot of traction?
The conspiracies about James Dean by the Anti-Dean Association are particularly popular in the southeast. There is one theory in particular, where supporters believe Dean is Satan incarnate, that has captured the imagination of many elderly conservatives.

Final question, where do you live Alex? What inspired you to do this?
I reside at an office in Alachua County in Florida. Certain details of the Trump Administration inspired me.

Well I mean, there's always those type of theories about people selling their soul or even being a demon or the devil themself. Really ain't surprising
Indeed. The Dean theories are particularly unsettling. You will have a brief glimpse into one of the conspiracies in the next entry.

———————

Thank you for all the questions, please stay safe and enjoy this evening. I believe the Super Bowl is on tonight.

Monument Mythos Q&A - 3.01.21 - Compiled by AntRoot#3390

From 5 to 7 P.M. EST, I will be conducting a Q+A with you all here on the General text channel. See you then.

Q&A

And for the 1st question, how do you choose which landmarks you do, you just get a board and throw darts at it and see what it lands on?
The landmarks are not chosen randomly.

Could you clarify the difference between the plaster Freedom and the bronze Freedom?
Plaster Freedom is Crawford's creation, the bronze Freedom is Philip Reed's work. The plaster model was used to create her final bronze form. In regards to Nina's observation of "metal eyelids," I speculate that it was the only material she knew that most closely resembled her observation. I highly doubt she knew the term ‘plaster'.

Was John Wayne President Dean's Vice President?
No. Reagan was Dean's vice. Reagan never successfully ran for President. He visited Maya Arnoldson to personally apologize for the administration's mistake. I believe Dean had several vices, though I could be mistaken.
How would that work?
There are several ways to go about it.
Secretary of State?
I cannot name them off the top of my head, my research primarily centers around Dean's own activities.

What was the death/injured toll for the 1977 ADA Insurrection?
High.

Alex, do you actually travel to the landmarks in question to film or do you use stock video?

I have visited the landmarks to document anomalies.

Does Freedom have skin-stretching abilities? clearly the plaster crucible was able to fit in a normal woman's body, and in the end of the ADA clip it has a skinned face.

Human skin can be made to fit extraordinary shapes when enough strength is used. Also, if you're wondering where Freedom had acquired the skin which she would be found in when she landed in New York, consider the line, "A violent conflict with Freedom, at the port of Gibraltar" 'Finds more skin' is an understatement for what Commissioner Morgan and the Gibraltar Police Force witnessed at the docks.

Are Mt. Rushmore and The Statue Of Liberty still safe to visit or are the locations still very anomalous sites?

Status unknown.

Would Freedom theoretically have the force required to chop down a special tree? Clearly she is very strong and has a damn sword used to fall trees.

The only man who could answer that, Philip Reed, died over a century ago. Philip Reed was an extraordinary person, he existed in our timeline as well. Little is known about him, though his achievements are remarkable.

Has an institute been founded or a science team been made to study those who've passed through these trees?

Unknown. I have my suspicions though, I have seen odd men nearby.

Did the ADA shoot down freedom because they were aware of her anomalous properties or just as a show of power/destruction when they raided the Capitol?

The ADA is analogous to a certain organization in our timeline. Their mindsets are similar. I believe your answer lies in that line of reasoning.

Were the people who ran Delaware River Journal still alive or are they missing in some way?

Unknown. I am pursuing several leads regarding the Delaware River Journal.

How many survived in the dock area after the freedom incident?

Few.

I have 2 questions. Were there any scandals regarding the candidates of the 1972 election and did the ADA support a specific candidate during the 1977 raid?

I have not done much research into the 1972 election, nor the 1977 raid. I can say that the 1970s were a time of relative tranquility. 1970 was the height of technological advancement, with the development of technologies that we wouldn't have seen until the 1990s in our timeline.

Among the unrelenting cascade of questions, is something anomalous happening at Pearl Harbor in the Monument Mythos timeline?

Pearl Harbor is a tragedy, I tend to stay away from sensitive subject matter involving mass death in our timeline. So, nothing anomalous, but that's not to say that it is insignificant. I actually haven't heard anything regarding any "Pearl Harbor" in the Monument Mythos. That's the same reasoning I have employed toward 9/11, the Challenger Disaster, and the Kennedy assassination. No anomalous activity will be forced upon the tragedy, but I will cover them as objectively as possible in the future when time permits.

What happened to the ADA following Dean's 2nd term ending? Did they fade away or continue to influence politics?
Interesting that of all the things, you assume term limits are consistent between time lines. Not to say that they aren't. But it's.... interesting.

In our timeline, Franklin D. Roosevelt had served 4 terms, do you know concrete evidence on how many Dean served?
I do not, I have been researching another matter for some time now.

Although you may have already answered this before, Alex, is there any anomalous phenomenon occurring overseas in the Monument Mythos timeline?
Of course.
Are there any examples of such overseas phenomenon?
Yes.

Alex, what are the reasons for Freedom's desire for skin? does she just want to live in the public or simply doesn't feel complete without it?
We can only speculate. I believe that she may only feel liberated when she 'fits' in. She may also believe that she is somehow freeing her victims from the constraints of their reality, and preserves their memory by wearing them.

Has Balboa Park become victims to the anomalies or has it been clean when it comes to them?
I have no info on San Diego, but I will write it down for future reference.

Is there any anomalous phenomenon connected to the Liberty Bell?
Unfortunately, yes.

How many anomalies have been spotted in New York?
Too many.

Was the cold war ‘cold’ in the Deaniverse?

It was Hot.

Did this war between Russia and America in the Deaniverse produce any anomalies in Russia?

Russia has a wealth of monstrosities. And their system of government in the Mythos is... fascinating.

Are any of these monstrosities in Russia connected to St. Basil's Cathedral?

I am unsure.

Do you know if there is an anomaly related to The Motherland Calls?

Yes.

So it seems where America goes, the Mythos follows, is that correct?

And vice versa.

Is a WHITEHOUSEWATCHER or something of the like in the works?

Not in the works.

Are there any anomalies connected to the Kremlin building?

Sort of.

What was Dean's Cause of Death in the Deaniverse? (assuming he isn't just 90 years old)

I will not disclose that information.

Another question regarding overseas anomalies, this time on Japan. Are there any anomalies connected to Himeji Castle?

Japan has many, many... things. Mount Fuji has one of the most disturbing stories I've ever taken interest in.

What occurred at the volcano?

I wish I could say, but I am... afraid to.

As in you're being monitored and are afraid you might be caught or is it personal?
The former.

Are there any anomalies connected to Tokyo Tower?
Yes.

Were Japan's sides changed during WW2? Or were they still in the Axis powers?
WWII is a subject I haven't delved into.

The better question would be if they were ever in the Axis in the Deaniverse.
That is a better question.

I got two more questions about anomalies in Japan. Are there any anomalies connected to the Yasukuni Shrine?
The shrine, having been dedicated to dead soldiers, will not be touched upon out of respect.

One last question regarding Japanese anomalies. Are there any anomalies connected to Fushimi Inari-taisha?
Possibly. I know that the Fukushima-Daichi plants have some peculiar details.

Have there been any depictions of unusual phenomena or anomalies since prehistory or is humanity recently finding out about them?
All throughout history. Though, thanks to the invention of the handheld video camera in the early 1970s, it became much more well-known more recently.

How was the Cuban Missile Crisis handled in the Deaniverse?
Differently. Dean had no say at the time.
In a bad way or in a good way?
Neutral, I haven't looked into it.

What was George W. Bush's reaction to the Angel? (Assuming he was president in the Deaniverse at that time)
He was not the president at the time.

I wish I could answer these questions more clearly but I haven't done much research into some of these events. I've been following a very strict schedule so I only know much about certain facets of the Mythos.

Are there any anomalies connected to structures in Shanghai?
Probably.

Is their any anomalies related to professional sports teams in the Deanverse?
Unknown, there are too many variables at play to conduct proper research at this time.

In WASHINGTONWORMHOLE, there was a video demonstrating the monument, there was a song that played that the tree sung, the video demonstrated it as a sound wave, however I did not find the tree in the demonstration, is it on purpose or was it a editing error? Or did the Tree die inside the monument to become a soul or some sort of power that does this?
The tree was redacted from public viewing. There are several versions of that film.

Are there any anomalies connected to places on the Korean Peninsula?
Yes.

Which of the two countries created by the Korean War has the most anomalies in the Deaniverse?
North Korea, in our timeline.

I would like to bring this Q&A back on track by addressing the subject matter shown in the last 11 entries.

Alright. How long has the Liberty Lurker existed for?
At least since the late 19th century.

Alex, what was Dean's response to the ADA storming? Was it 2 words?
I have conflicting reports, but it was kept to a minimal, for sure. I do not want to misquote Mr. Dean.

Did Air Force One ever make any other unannounced trips after 2003?
Yes.

Were there other Angels spotted, or was it just one?
There were several, but only one of true significance.

Will you make reference to some fan made anomalies or like a slight nods to them down the line? Curious on that.
Since the Mythos is still in its infancy, I have not seen much fan work. I have heard of LIVINGLEXINGTON and ALAMOARCHIVES, but I do not believe they have been completed. I wouldn't be against the notion. I was going to reference the latter in FREEDOMFALLER.

How many people went missing (If any) by the Washington Wormhole before the Absentees?
Unknown.

Is the entire southwest United States uninhabitable due to the Alcatraz anomaly?

Not uninhabitable per se.

How long did repairs take for the Washington Monument following 2003?

Over a year.

What were the whereabouts of Freedom after the ADA storming of 1977?

Away.

One last question from me regarding overseas anomalies. Are there any anomalies connected to Juche Tower?

I have very little to go on regarding Pyongyang.

What was the media's reaction to the 1977 storming?

Dismay. Comparable to our own reaction to the 2021 Storming of the Capitol.

How the hell did they even get a 20 foot sword swinging skinning superwoman under control?

She went to a ship and simply laid down to gather her strength. The ship was hurriedly rushed out the port, and would stop in Bermuda before finally landing in New York.

Also, what was the casualty count?

Over 25.

When it was being used as a prison, did Alcatraz Island display any anomalous activity?

Oh yes, it's odd.

If there was any inmates still left on the Island when the Alcatrazosis effect started, was there a prison riot?

There were inmates, and there was a full-scale 'war' of sorts. The War of Alcatraz was a real event in our own timeline, if I recall correctly.

What was the ADA's response to the reactivation of Freedom and her high death toll?

Horror, more distrust of the government.

Were there any government officials included in the death toll? Or were they evacuated prior to Freedom's appearance?

Most evacuated, including Dean. But there were a few very notable deaths.

In the Deaniverse, were any anomalies introduced to the moon following the moon landing?

Yes, though you may be thinking of another moon landing.

How long did the ADA last following the 'unleashing' of Freedom?

Unknown, I know that they broke off into fractions at a certain point, not long after the attack at the Capitol.

Did the Angel make any drops at the Grand Canyon or the Capitol Building in their sight-seeing trip?

I don't believe so.

Are there any anomalies connected to the Theodore Roosevelt Island?

No.

What's with the rumbling noise ambiance in the documentary sections of WASHINGTONWORMHOLE AND FREEDOMFALLER?

It's the ambience of the Mythos.

How long did the Delaware Double last after it was discovered?

I cannot reveal any details regarding the identity of the Delaware Double.

This is more meta, but is there a certified timeline with events laid out that you use for the videos?
Yes.

Will we see Virginia show up again or is she just Rockefeller related?
We will hear her name again.

Are there any anomalies related to the German battleship Bismarck?
I do not know.

Are there any anomalies connected to the Empire State Building?
Yes.

If the Monument Mythos were a live action type of thing (Hollywood style) would you have be several movies or a show with each episode unraveling a story?
It would be several movies, with one anomaly being a show. I like the idea of a LibertyLurker film trilogy and a President Dean TV series.

Are there any anomalies related to the Metropolitan Museum of Art?
I want to say no, but it is unconfirmed.

Where's the LibertyLurker as of 2020?
It hasn't migrated to any other country. Not to my knowledge, at least.

Are there any anomalies related to the MetLife Building?
No.

Were any Arnoldsons ever explicitly met/had some sort of correlation to the Dean presidency?
Not to my knowledge, though I cannot confirm nor deny.

Second to last question I have regarding New York City anomalies. Are there any anomalies connected to Grand Central Terminal?
Yes!

The ADA probably formed their own party around the Dean presidency.
Yes.

And the last question on NYC anomalies. Are there any anomalies connected to the Chrysler Building?
Yes.

Is there any anomaly related to the Cinderella Castle?
Epcot is particularly unsettling.
How severe is this anomaly in Epcot?
Unknown.
Does it have something to do with Spaceship Earth?
No.

Last question, Is there an anomaly regarding the Golden Gate Bridge?
Yes.

Did Dean pick vices based on politics, or personal preference?
Politics.

Second to last question from me. Is there an anomaly regarding Disney World's Tree of Life?
Unconfirmed. You have many questions about different locations, I will not answer so many in the future since they're all relatively off-topic. Apologies, but I simply don't want to sound like a broken record.

Were ADA supporters that met/got to know Dean particularly swayed to his side?

They were impressed, I wouldn't say they were completely swayed. Everyone knew he was a good person.

So what you're saying is that some people were not swayed by his (possibly supernatural) charisma?

Who wouldn't be swayed by James Dean? I don't think many quite grasp how special it is to be in the company of such a unique individual. Considering that the other two candidates were Nixon and Wallace, I don't think it was as difficult as you might imagine.

Did the government ever offer any follow-ups to the Angel incident?

Yes.

Updates to the public?

No.

This is more of a revealing question, but was the president during the Angel incident an outsider or is he relevant to our dimension?

He exists in our timeline.

When did the 'special tree' first start growing?

Long, long ago.

———

Thank you for the questions, it has been a real pleasure to speak with you all. Please have a good evening, and stay safe this week.

Monument Mythos Q&A Session - 3.27.21 - Compiled by AntRoot#3390

How are you today?
I am well, a bit sore from an encounter yesterday.

What VHS filter do you use for the Monument Mythos?
I do not use filters for the Mythos.

What monument would you visit in the Mythos?
I have visited many already. I suppose I am looking forward to Hoover Dam, which I've recently added to the itinerary. I won't visit for some time however.

Was popcorn prime the only personal computer available? Like, is the one they shut down on TV in the '90s a popcorn prime?
Popcorn Prime was by far the most popular device sold. There were other companies with other products, hence the recall of ALL personal computers and not Maize-specific devices.The very last PC shut-down on national television was not a Popcorn Prime. Popcorn Primes have a distinct checkerboard array of lights on their body. The last PC was a Popcorn One, an unsuccessful reboot of the Maize computer design. If you zoom into the famous 'Shut-Down' photo, there is a label present near the screen that reads 'Popcorn One'

Any word on whether or not anything strange has been going on with the Gateway Arch? Seemed (kind of) close to one of the dots shown on your most recent upload.
I think we can all guess what Gateway Arch really is.
Although I can't help but wonder if it might provide answers as to the one individual revealed to be still missing from the Washington Wormhole video.
It does not.

Was 'My CRAZY Grand Canyon adventure' made with Maize Mover Maker?
Yes.

So... did personal computers make a comeback after that whole "last American personal computer" shut down thing in the '90s?

No, personal computers did not make a comeback. The Maize Movie Maker is used exclusively for video-editing. It has no other function.

The video that Maya and Nathaniel made, it says "PROPERTY OF MAIZE" throughout the entire thing. I assume Maize got ahold of it some way or another, or is this a watermark that gets put on any movie made through Maize Mover Maker?
Maize obtained Maya and Nathaniel's video, yes. The watermark is not a part of Maize Movie Maker's programming.

So if Maize got ahold of it... how did you get it? You don't have to answer if it's not like... safe or whatever.
I have friends in Maize.

Who were Maize's primary competitors prior to President Dean's founding of the Department of Technology? If so, would any additional information be obtainable from their old records?
I do not know much about Maize's early history, I've focused my studies on their history from 1969 onwards. I apologize for the lack of info. But I do have older records from the early sixties that could provide some insight. I will get back to you when I have the time.
This is good news; let us know if you discover anything particularly noteworthy.

Somebody noted that Hoover was on the Maize list. I'm guessing the Maize factory map is a good starter for where we will see future anomalies.
Possibly, but I wouldn't count on it. There are many, many things in America to be researched.

Do you know anything about Project Horned Serpent?
Yes.

Will we see Mr. Careers and Mr. Watroba again in the Deaniverse?
It's likely that we will, considering that Rob Careers was particularly innovative throughout his lifetime. Rob Watroba's contributions are often overlooked unfortunately.

Did President Dean say anything after Maize was attacked?

Few presidents have ever offered apologies for events after their term.

Are Careers and/or Watroba still alive?
I have not checked up on their current statuses.

Has Nathaniel Arnoldson been spotted at any other monuments/anomalies after the events at the Maize factory?
Nathaniel used to visit the Grand Canyon fairly regularly. Every few years or so.

Was there ever a reason found for the Maize attack?
Yes.

Hold up so, in present day mythos, do regular citizens no longer own computers?
They do not own computers.
Alex owns illegal tech monkaOMEGA
There will always be computers in circulation, regardless of their legality.
What about the government or people who pretty much absolutely need technology?
They're not called computers in Washington. They don't look like them either.

Does the general public still use more traditional methods of getting their information then? Like... newspapers or TV?
Yes.

Did Maize computers ever have any biological components in them? It is mentioned that some type of "outbreak" occurred that resulted in the nationwide recall, which is a term often associated with something biological rather than technological.
Maize computers have biomechanical components in them. I cannot elaborate.

Do Presidents serve their terms differently than what we're used to in our universe?
Some of them.

Does maize make other products other than computers? If so, what are they?
Yes. They've made many, many products that utilize hardware (i.e. vehicles, androids, etc.)
Were the androids used for military and civil purposes?
Not just military and civil.

Will we hear more about Maize in future videos? I'm guessing they'll serve as a corporate aspect of the Deaniverse, like how Dean served as a government aspect.
Of course. And the Department of Technology.

Do monuments in the Deaniverse carry the same sort of "American" pride as they do in our universe? Or are they more mysterious than "patriotic" to the average 'Dean' American?
Do monuments in our universe truly carry that American pride you speak of? Depends who you ask.

Did the Angel ever visit a Maize Factory in depth?
No.

What did the US president at the time have to say about the 1980 Maize Attacks?
Nothing particularly special. Besides the first mention of a universal ban on personal computers of course.

Was the Maize Mover Maker a successful product? Like, is there really a market of Americans really into making movies?
It was a hit.

What exactly was the creature underground in the newest video?
I'm afraid "What exactly" questions are particularly difficult to answer when I am still researching. I'd refer back to the Horned Serpent diagrams.

Do personal computers still exist in other countries?
Yes.
Maize brand or another brand?
Another brand.

How much damage did this 'horned serpent' cause to its surroundings when it first awoke?
We have no precedent in our universe.

Are any of our crazy theories correct?
Partly.

Do video games exist in Deaniverse America?
Yes, they are primitive.

What did the ADA have to say about Dean's Department of Technology? Did they demonstrate at Maize factories?
Of course.

Have there been attempts of sabotage on Maize facilities by ADA or another entity other than the 1980 attack?
Yes.

Has anything been located in or around Mesa Verde National Park?
Yes. Interesting story on why it was abandoned.

Does the red [text that Nathaniel and Maya left at the Maize Plant] have any secret meaning?
It is used for emphasis. At least that is the belief of most spectators.

Has there been any task force of some sorts that have been made to keep anomalies at bay or do they let them roam naturally?
The U.S. Government and Maize have attempted in the past.

What do the Arnoldson's have to say about Dean? Not very welcoming I presume?
They do not dislike the president specifically. They dislike the government as a whole, particularly congress.

"Infection, Grow, Connected, End, Mass, Murder, Beware, National, Monument" I made this from the images of the 4 times the monuments were vandalized. Is this just me being insane?

Those words certainly evoke strong feelings.

Do any of the former naval ships now museums (i.e USS constitution, USS Lexington, USS Texas, etc) show any sign of anomalous properties?

The USS Enterprise of World War II interests me the most.

Will we ever learn who ran against Dean in his re-election campaigns?

Not anytime soon, but eventually I think it will be mentioned.

Are you going to release any potential information on Congresspeople (House or Senate) who challenged/aided Dean?

Potentially, I'll have to wait for a few family members to pass away since the stories can be quite inflammatory. That sounds quite morbid, but some of these figures deserve no sympathy.

Does the common population know of these accidents or is it hidden?

It's partially covered up, not very well though. Think of how the Kennedy assassination certainly seems fishy in our universe, yet we accept its strangeness and do not pursue any other leads that contradict the stories taught in history textbooks. This is how most civilians are in the Mythos.

When did these anomalies start appearing?

Long ago, an exact date cannot be determined at this time. At least since the late eighteenth century.

Do any living Presidents from our universe (Carter, Bush, Clinton, Obama, Trump) exist in the Deaniverse in one form or another? You've mentioned before W. Bush was not President in 2003, at least at the time.

They do exist in the Mythos. With alterations to their careers and life choices of course.

Just a follow up then: Do any of their names appear in any significant way in your research, or are they rather neutral in the Deaniverse?

I haven't looked at the figures specifically listed, but it's a mixture of both in regards to other political characters.

Have any of the Anomalies across the world caused humanitarian crises? If so, which one seems the most destructive of them all?
There is an animal in former Mesopotamia (i.e. Iraq) that has caused immense damage and loss of life.

Is there any country heavily fighting these anomalies?
Yes, but they're never publicly referred to as anomalies. Sometimes they're out to "control the TFMDS (True Forces of Mass Destruction)" It has an entirely different connotation than 'anomalies'.

In WWII were these TFMDs used, and if so, how much?
Yes. Undetermined.

What are these TFMDs, if you are willing to share?
The Special Trees are a part of one. As is Alcatraz. There are others of course.

So Maize computers were the Department of Defense's way of trying to control the TFMDs?
Maize collaborated with the Department of Defense to control TFMDs, yes.

What was the greatest use of TFMDs? (greatest in terms of the most amount of damage)
The 1980 Attack was certainly one of the most devastating. There were a few overseas, but not nearly as well documented.

How many Anomalies have been found in the US alone? Is it a solid number or undefined?
Undefined. Definitely.

Will we ever find out more information on the 1980 attack?

A lot of the info is redacted in the documents I have obtained, and there is a bit of a stigma in talking about it, especially as time has past and more cheerful events have happened since then.

Have any anomalies been observed in space as of yet?
Yes.

Is humanity a TFMD, or an anomaly?
A TFMD.

Does the Deaniverse U.S. Constitution vary from what we know?
Not significantly, no.

I don't know if this has been asked before, but how and/or why did you begin your research?
Long ago, but only recently have I been releasing material to the public.

Are there similar [presumably] underground caves in all Maize factories? Or was it just at the one?
All.
Are they linked?
Yes.
Are the caverns stone? Or.. organic matter?
Mostly stone.

Are there any other people like you documenting these Anomalies?
There were.

Is the attack on Maize linked to the infection of Rushmore? It looks like there are similar fungal spires coming off of the buildings as Rushmore.
Yes.

“Thank you for the questions, it has been a pleasure answering them. Please have a good evening and stay tuned. Take time to let your friends know what they mean to you.”

Monument Mythos Q&A Session - 5.1.21 - Compiled by AntRoot#3390

Preliminary Statements

"I'll be arriving in the U.S. this evening thanks to a discount on Concorde flights. I'll be conducting a Q+A from 7 to 7:45 PM EST tomorrow (5/1/2021). Have a good night."

Q&A

Maybe an obvious answer, but did the Anti-Dean Association become the Anti-Device Association over time?
Yes.

Why was a nuclear bomb the first option chosen to move the boat?
It was the last option.
The first option was what occurred in our universe.
Well, your universe.
I travel often.

Would a modern-day smartphone be banned in the Deaniverse?
It would difficult to ban something that most people consider an impossibility.

What was the space program like under President Dean's leadership?
Successful.

More or less successful than our universe's?
Depends on who you ask.

Is the Hotel Attraction built in the Deaniverse? Or does the Twin Towers still take its place?
Haven't been. Can't say.

What type of device can the Doctor Disturbing video be viewed on?
On nothing legal.

Did something like what happened to the Evergiven happen to any other ships throughout history?
Yes.

What is the quality of life and the dangers of living inside the Alcatraz Zone?
Depends on who you ask.
What is the general consensus?
Most people turn the other cheek.

Was "Attack of The Crabs" based on a real event?
It's a terrible Roger Corman film. Absolutely awful.

Is the U.S.S. Enterprise a victim to said incidents similar to Evergiven?
I am unsure. I have not looked into WII vessels.

Has any of the U.S. labeled anomalies been labeled as endangered?
Yes.
And also are there any safe ones that benefit more than they harm?
Difficult to say.

Given that the TWTTR devices are legal to use in the MM-universe (and seem similar to modern devices used in our universe), what distinguishes that device from personal computing devices (which are illegal)?
T-Machines only have one function: to enable users to access TWTTR. One can upload videos and photos taken on a T-Machine.
Also, just so I'm clear going forward, what characteristic(s) would a device need to have to be considered a "computer" in the MM?
That's a question for Rob Careers and Rob Watroba.

Did the encounter with LincolnLooker cause Howard Melrose to pursue a journalism career?
It made him… curious. A career in journalism was a result of that curiosity. He had never seen himself as a reporter.

And a follow-up. Was Howard ever charged with vandalism during the LincolnLooker incident?
No.

How big are T-Machines? Like walkie-talkies, or brick-phone sized?
Depends on the model.

I thought Spain was labeled Gibraltar in the FREEDOMFALLER video.
Spain has not been altered in the Mythos.

Who was President after James Dean?
I do not want to affect this timeline prematurely, I will not answer your question.

Did anything ever bad happen to Hawai'i?
Depends on who you ask.

I've been curious, what years did Rockefeller serve as President?
I have not confirmed the start and end date confidently, there are conflicting reports due to poor work ethics of the time.

When did the TFMD's become public knowledge?
Far later than it should have.

What was the party allegiance of James Dean? Democratic or a third party?
Democratic.

Do any countries exist in the Mythos that do not have a parallel in our universe?
Depends on the time period.
Any in the present day? (2021?)
Difficult to ascertain. I believe everything has a parallel if you look into it deep enough. There's no nation that's entirely unfamiliar.

Do the 10 year divides between important Maize events have significance? Why exactly ten years?

Refer to the timeline pertaining to the history of the Washington Monument.

Are there double actors for each president in office after the George Washington incident?

I've never looked into that. Reading too much ADA material, eh?

This one is a bit specific and unlikely but: Does Lincoln's eye move in RUSHMOREREVENGE?

No one believed the park ranger.

When the U.S. was settled, did any of the colonists document any anomalies?

Plenty. However, whether or not they're being truthful is another matter.

What was in the Evergiven that was so important?

Deluxe barbeque grills.

What happened to Dean's opponent after 1972?

Nothing out of the ordinary.

Any anomalies in Puerto Rico?

I haven't looked into Puerto Rico.

Will anything be featured in Memphis, Tennessee? Martin Luther King survived his assassination attempt there, so…

Yes, though maybe not a monument per se.

How tall is the Suez Canal Crab?

Taller than Cairo Tower. (614 ft. 187 m.)

Did an event similar to the Chernobyl reactor meltdown occur around 1986 in the MM-universe?

Yes.

Was the event ever attributed to an anomaly or simply worker incompetence?
Not incompetence. Poor design. Though there's a fair share of conspiracy theories involving TFMDs.

Where (are/were) nuclear weapons made?
How would I know?

Have some countries put a ban on personal computing devices?
No. Some haven't ever produced one.

Does Dean see criticism or praise in modern times?
Praise. Who doesn't love Jimmy?

Where do both the Republican and Democratic parties stand ideologically? Same as our world?
Disappointingly similar.

Which ocean has seen the most anomaly activity?
Indian ocean.

Are there any other associations in modern times named "A.D.A."?
Please clarify.
Do any relevant associations politically or otherwise have names that simplify down to "A.D.A.", like the Anti-Device-Association?
There was the Anti-Dean-Association, which later became the Anti-Device-Association. There were various other names they went by as their focus changed.
How many times did the name change (in total)?
I never counted.

When did TFMDs get their name?
1971 I believe. I could be mistaken.

What year did World War II begin and what year was its official end?
1939 to 1945 probably. I haven't looked into World Wars but I can't imagine that there's much divergence. People are ignorant across the board.

Was Japan ever an American state at any point?
Again, I haven't looked into WWII. Though, state might be the wrong classification for what occurred.
Occupation?
A bit.

Is there any alternate progression in civil rights in America? (Racial, gender, sexual, etc.)
Yes.

Have any anomalies been connected in any way to Cape Canaveral or other locations that are typically associated with NASA?
Yes.

Has there been a human landing on Mars, and, in that case, would be willing to share the year that it happened?
1980, I believe.
Did they discover anything strange there?
No. Though "strange" is a vague term.
When did the moon landing happen then?
Depends on who you ask. Lots of conspiracy theories.

Is Lauren Arnoldson's brother canonically named Quinn?
Yes.

When was the space program invented, specifically for the U.S.?
The space program was never "invented".

[Unprompted, perhaps the response to a gif of a funky alien doing a little dance]
No.

Did an event similar to the alleged alien space crash in Roswell, New Mexico, occur in the Mythos?
Yes.

Are there any anomalies that relate to the Roman Colosseum or the Parthenon?
I haven't looked. I've heard odd stories though.

Has anything happened in the Bermuda Triangle or is that not a thing?
The Bermuda Triangle is bullshit.

Did President Dean continue his music career during his presidency or afterward? If so, were there any notable songs or albums?
Dean likes to play his bongos. It wasn't much of a career as it was a hobby.

I recommend for the WWII studies to look into the Battle of Los Angeles. Maybe a conspiracy but also maybe not. IDK.
It's an odd one for sure. Mass hysteria probably.

What did WBOC-TV stand for? Like an acronym?
"We're between the Ocean and the Chesapeake" Television.

How did (presumably) JFK handle the Cuban Missile Crisis?
I haven't researched much in that area.

What major historical U.S. event deviates the most from our universe in terms of impact on the country's future?
Depends on who you ask.
What if we ask *you?*
I travel often, I have not felt the true ramifications of the other land.

What was the plot of *Attack of the Crab Monsters (1957)?*
Who knows.

What are the current relations within the U.S. and Russia?
They're not at odds much nowadays.

Has there been life found outside of Earth that did not originate on Earth?
There are many theories regarding its origins.

When was Hillary Clinton elected?
2016. She was in office by 2017.

Is Vladimir Putin in power?
No.

How much different is American Independence?
There are not very many differences.
…
Well, according to the textbooks.

Did the USSR still collapse in the Deaniverse?
Who's to say it ever existed.

Are there any notable animals that went to space?
Yes. Laika the dog.

Has the Philippines ever been affected the most from U.S. anomalies?
Possibly.

Are some folks in the MM-universe aware of our universe in any capacity?
Some are vaguely aware. Most are clueless.
I'd imagine persons in positions of power are most likely to be aware.
Only some of them.

Did COVID happen in the Deaniverse?
Yes, but it's well managed in the states.

This is literally 1984! [remark made in observation to messages being deleted]
Oh, you wouldn't want to know how I'd enforce 1984 in this server.

What is the world population, in 2021, in the Deaniverse?
Much lower.
Near-cataclysmic event occur?
Not as cataclysmic as you're assuming.

Who is the 20th Washington Absentee?
I have narrowed down the suspects recently.

How does one travel between universes? Communicate through them?
A reversed temporal channel.

Are there any new states in the U.S.? Or is it the standard 50?
There will be. At least in our universe.

Question that's been bothering me a bit. Are there "headless people" in the tv screen on DEANDEMOCRACY?
You've been reading a lot of ADA material, eh?
Also, why are the people in CANYONCROWN headless as well?
The explanation is a bit too graphic for the server.

Did anything important happen in 1984?
As with every year, yes.

"No more questions."

"It has been an excellent Q+A, I enjoyed my time here. Thank you all for the questions. I will be off on assignment tomorrow morning. I'm surprised no one asked about the Concorde flights, they're much faster than your planes today."

Monument Mythos Q&A Session - 5.30.21 - Compiled by AntRoot#3390

Q&A

Has your stance on the Deaniverse and your previous works' connection changed?
No.

Is the "301" of both STARRYSPHINX and FALLENFATHER in connection to the area code of western Maryland and greater DC or to Greece's country code?
D.C., among other things.

Why are we receiving Statements from Maize for Season 2 instead of Archivist's Notes? [.- .-. . / -.-- --- ..- / ..- -. -.. . .-. -.-. --- ...- . .-. ..—..]
Ask Maize.

Toward what constellations/astronomical objects was the camera pointed to in STARRYSPHINX?
The consensus is that the camera was pointed at the constellation Leo, though there are those who believe it was pointed at a similar, but obscurer pattern.

Has anything anomalous been reported in Antarctica?
Yes.

Do other social medias (for example: facebook, instagram, myspace) exist in the Deaniverse alongside Twttr?
Some of them.

What nation was the first to land people on the moon and which was the first on mars?

The United States.

What is the state of the International Space Station if it exists at all?

It's functional.

What's the farthest out a man-made object (manned or not) has been from Earth in the MM-universe?

I wouldn't know.

How are Lauren and Quinn handling the Death of their father, are they now in the care of Maize or do they live on their own? Does Maya still Visit them?

They are not in the care of Maize. They're still processing Nathaniel's passing, taking it one day at a time. Maya has kept them company.

What year is it currently in the Deaniverse? 2021?

No.

Are there any strong connections between the Canyon Crowns and Lincoln Lookers?

In some cases.

Are the heads on Mount Rushmore Canyon Crowns or another kind of entity?

To be determined. I have not been allowed on the site.

How are Concorde Jets still a thing in present-day? Did President Jimmy endorse their continued development?

The Department of Technology. The supersonic travel industry has an excellent safety record and its coastal airports are state-of-the-art. No flights are allowed over the continental U.S. of course.

Have any ancient civilizations in the MM been known to have anomalous qualities?

Yes.

If you can disclose, which video do you feel we should look into the most to further our understanding of the Mythos as a whole? As in, is there something major we've missed in one of them?

MaizeMovieMaker.

I see, I have a question about the stars in STARRYSPHINX - were they literally shrunk down balls of nuclear plasma or were those specific stars in the sky a different kind of entity?

An excellent inquiry, I've been asking myself the same question. I believe the answer lies in the peculiar shape of the falling star. My analysis has yet to provide any clear answer.

Is the starry sphinx known to be aggressive to anyone in its presence or is it passive?

Its behavior is generally passive. Its presence has brought about a few unintended consequences that are... odd to say the least.

Is the sinewave-patterned placement of the Maize facilities to do with satellites? And if not, is the wave shape important? (besides the serpent, of course.)

You've answered your own question in the parentheses.

Is Atlantis still considered a myth in the MM or is there evidence to suggest it might have been real?

There is no suggestion. Atlantis is very real.

Was the filmer in WASHINGTONWORMHOLE one of the absentees?

No.

Is James Dean still alive as of present day, or did he sadly pass away?

I'm not sure, we do tend to forget when presidents pass away.

am i allowed to ask the question that i asked in potus press room

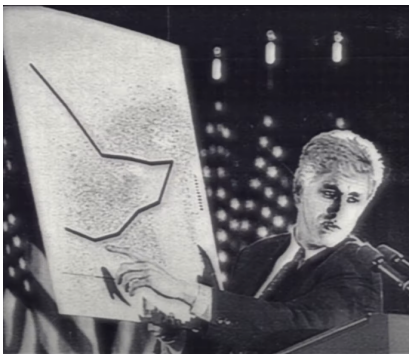
Absolutely not.

Do you know of any anomalies in Liberia?

I haven't looked into it.

Have there been any more Dimensional Displacement Incidents, since the 1934 Tree Tragedy.

Of course.



What is depicted on the board in this?

Beats me. I'd ask Maize's marketing team.

Are you maize's marketing team?

No.

What inspired you to make Monument Mythos as a whole?

Certain details released by the Trump administration.

Is Albert Einstein's contributions to science in MM greater or less than in our world?

About the same, the man was a genius.

Was the 2004 Navy UFO incident a sighting of extraterrestrial vehicles?

Hm.

Are there any potential dangers associated with the use of the "reversed temporal channel”?

Yes. I don't want to scare you though.

Are you going to continue reusing elements from older Non-MM vids in the Mythos (i.e. Crescent King, Yellowman or Cornerfolk)

It's a continuation of themes and images that have been around for a very long time. The older videos are merely hints.

Do you actually go to the locations for the live action scenes of MM?

Many of them, yes.

What's the big message of the Monument Mythos, if there's a specific message?

The Mythos has many ideas at hand, there is no singular message. A singular interpretation would boil the series down to nothing of consequence. Fortunately, this is not the case.

What kind of things are you thinking about while doing the work for the mythos?

Many, many things. Sometimes the current socio-political climate, other times the sentiments of people in the past. I often think about my own friends and family and the danger they're in because of my studies.

Who is Hillary Clinton's vice president and, if you don't mind answering, who has she assigned so far as a Lincoln Looker?
That information is unreleased. Her vice is Tim Kaine.

Have you looked into the so called "Portal to Hell" in Stull?
Yes. It's interesting, isn't it?

Is the Bermuda Triangle still bullshit?
Yes.

Actually, are there any other new spawned religions like what happened with the Church of the Evergiven?
Yes.

Two parter question: Who did Hillary Clinton run against in 2016 and 2020, and in both cases how many electoral votes did she get?
I haven't looked into those details. Apologies.

Apologies if this had been already answered prior, but what was the earliest known record of an anomaly (prehistoric or not) in the MM? I'm aware of the one in Mesopotamia, but have any ones earlier than that been found?
Yes.

What is the best selling video game of all time in the Deaniverse?
Trespasser (1998) It isn't a Jurassic Park game however.
Antroot note: It's a JP game in our universe.
What video game is it?
See 1977 Capitol Storm.

Are there any other TFMD on the west coast?
Yes.

Do Maize Video Cameras work the same as Maize Computers, with Biomechanics? If so, were they also swept up the National Recall?
I have not looked into their designs. Cameras were not taken through the National Recall.

Is the educational system in the U.S. largely the same or not in the MM universe?
Good question, wouldn't know.

What were the ADA protesting about during the 1977 Capitol Attack
James Dean.

What is the soup given to Lincoln Lookers?
The answer is inconclusive.

(Unprompted)
Brief mistranslation in the temporal channels, apologies for the odd response earlier.

Are the monsters we see sometimes like the Canal Crab and whatever's in the Lincoln statue/Alcatraz just very clumsy and/or weird/don't work well in human lands and don't mean us harm, or are they actually violently aggressive?
Depends on the example.

Did Donald Trump ever hold political office in the Deaniverse?
No.

Can anything be said about Abraham Lincoln's assassination? Did it even happen at all?
A lot can be said. An attempt was made.

What happened to Virginia after the tragedy? Did she live a peaceful life or is her fate [REDACTED]

She [REDACTED].

Is there a major US third party besides the Libertarian or Green party?

Yes.

Does Wounded Knee hold a place within the Mythos?

I haven't looked into it.

How differently (if at all) did the American Civil War play out in the MM universe?

Not too differently.

Did the Roswell incident spawn an awareness of UFO stuffs or do people not really care about UFO stuffs in the Mythosverse?

Depends on who you ask.

Can you program the Twttr machine to run Minecraft

No.

———————

Thank you for the questions, I have enjoyed my time here. Please have a good evening and stay safe. Tell your friends you love them and make plans to look forward to.

Monument Mythos Q&A Session #1 - 6.12.21 - Compiled by AntRoot#3390

WARNING: Some seriously weird stuff happened in this one. Some of the edits here will be reconstructed to the best of my memory.

Q&A

How is your day?
Greetings, I am well.

Did Maize hearing aids cause any issues for people in the years following their implantation? I'd imagine they also had biological components built into them like the Maize computers eventually would.
As with any surgical procedure, a small percentage of the population did have complications.

What was the private video that was briefly in Season 2 after FALLENFATHER released?
It was a glitch, I reported it to YouTube and they corrected it.

Alex, why is your status always invisible?
I am a fan of a particular H.G. Wells novel and I'd like for my status to reflect that.

Is the one-electron theory the explanation for the reversed temporal channels and the special tree abilities?
The temporal channels work on similar principles, yes.

Was there an equivalent to the "Philadelphia Experiment" in the MM?
Many.

What material are the Special Trees made out of?

I wouldn't be the one to say.

Last QNA, you kept mentioning for us to ask Maize's marketing team. How do we do this?

With your T-Machines of course, there's a 'Help' function on the back.

How did the reform Party exist in the MM, and if so, how successful were they compared to our universe?

I am unsure. I have yet to research the 1990s.

How much does a T-Machine cost?

Definitely less than an Apple product from our timeline. (Edited)

Did the Windows OS exist in the Deaniverse?

No.

Did you use Windows Movie Maker to make Canyon Crown?

I did not make Canyon Crown, ask Lauren.

Has anything strange been reported with regards to the Jefferson Memorial?

Yes.

Did the Apollo astronauts encounter bizarre phenomenon on the lunar surface?

Not too bizarre, it had been expected for some time.

Have we missed anything? And if we have could you maybe give us a hint as to where to poke next?

Of course you have. Another viewing of RUSHMOREREVENGE wouldn't hurt.

Is there any explanation for the seemingly faceless man in this photo?

~~I... I've never seen that before. My colleague had warned me about something like this. Another topic please.~~

Ah! He's just a part of Dean's administration.

No worries! 🙂

Whatever happened to the Delaware Double?

I've been developing a report on him for some time now. He's an interesting one.

Does fast food exist in the Deaniverse?

~~No.~~

Yes! Of course 🙂 Great stuff!!!

Is there something inside the Great Pyramid?

Yes.

~~Something is going wrong with the temporal channels.~~

[N/A]

Is the "mass murder" and "executions" in American landmarks referenced in the vandalism of Rushmore in reference to the alleged mass purge of the ADA?

Partially.

Since we know of a few people at this point pose MM-self lived their counterpart in our world, is there an example of someone in our world who outlived their MM-self?

Yes, yes there is.

Wait did he imply there are more universes.

Well yeah that's what the Deaniverse is.

I know, but… more than just ours and the MM.

~~No.~~

I wouldn't know.

Did the pandemic happen in the Deaniverse?

~~No.~~

~~Didn't happen.~~

No to the severity of our own.

Does Howard Melrose belong to any News Organization?

He was mostly independent, though he had a run with the Delaware River Journal.

What's been your favorite video to make?

DeanDisaster.

Was the STARRYSPHINX footage captured in the same year by the same person that captured the WASHINGTONWORMHOLE footage?

I am unsure. I've tried to locate the names of both videographers but the identifying markers were obscured on the tape.

Could you name some of the other political parties in congress?

The Democratic and Republican parties are relatively consistent throughout history. I'm not too keen on the others.

Is Buffalo Roach canon to MM?

Perhaps.

Is there person typing under this account currently Alex Casanas?

Yes.

How the hell is the ADA allowed to have a TWWTR account?

I could ask the same of a few other organizations in our timeline.

How long has TWTTR existed?

15 or so years? That's my estimate, I'm not entirely sure.

Is it (ADA) not considered a terrorist organization by the FBI?

It is.

Does the FBI exist in this universe?

It might as well be called the FBI.

What is the single deadliest event in Deaniverse American history?

See "1980" in MaizeMovieMaker.

What is the 1969 Siren Attack's death count?

Thousands. Tens of thousands.

By this point, the server's members are wondering if Alex's responses are trustworthy. Side conversations about the suspicious edits are taking place.

Do you have out best interests of looking into these conspiracies at heart?

Yes.

Was Dean a good president?

Depends on who you ask.

What is your opinion of Dean?

I like President Dean.

Was the faceless man Ronald Reagan?

It's hard to tell without the… face.

Do you know of any other elections in American history that have been marred by violence (on the scale of the 1/6/77 attack)?

Yes.

Is that faceless man your colleague?

No.

Was the siren activated in all 50 states?

All of them.

Are you in allegiance with the ADA?

Fuck no.

How are the temporal channels doing right now?

Stable.

Are there any major organizations aware of the MM?

Yes.

Is the Eiffel Tower safe?

No.

Is Babylon actually the place where Rockefeller found the Special Tree, or did he forget the name?

It's the place. Though it's not referring to the town.

Is the Star Spangled Banner the MM America's anthem?

No.

Is it My Country Tis of Thee?

Yes.

Are we safe?

Yes.

Are you safe?

Yes.

How many special trees are in the US?

Undetermined.

Did the Beatles exist?

The Beatles did not do well at all.

Is there something in the Washington National Cathedral?

Yes.

People.

Is Walt Disney not responsible for EPCOT?

He is. Though EPCOT is not the same as ours.

How many episodes are planned for the MM?

11 episodes per season. At least 2 seasons. 1 trailer per season.

Have there been any lies in the videos?

Not of my doing.

When does LincolnLooker take place?

I am unsure, the year has been obscured on the tape.

Are the presidents still available to talk to?

They have been very busy, my apologies. They both reached out to me recently and promised that they would return to the server in the near future.

Is James Dean human?

Depends on who you ask.

Do you believe we can pull any more information out of STARRYSPHINX?

Yes.

What year is it for you right now Alex?

~~I though it was 2024... and then~~

2021.

Are you planning the MM to be multimedia? As in, not just videos, but perhaps games?

A great question. That's up to the viewers. Many of the fan works appear to be heading in that direction on their own volition.

How much does Maize Movie Maker cost?

It comes with the Maize computers.

Alex, what was the last ting you saw before you were taken out of 2024?

~~A PHOTO OF THE ANGEL!!~~

What?

I deeply apologize for the malfunctioning channel. I've had technicians come to the house and they appear to have botched the job.

What is the largest human-made object in space, and as a secondary question, what is the largest human settlement on another celestial object?
The channels are being monitored by our own people, they want to hijack my system. I cannot tell you at this time. I must preserve your timeline.

What kinds of objects land on the Sphinx in STARRYSPHINX? They didn't seem to be normal stars given their behavior and luminosity.
Certainly not stars, you're right.

Did the ADA ever assassinate government officials?
Yes.

What year did the Cold War go hot?
~~I.. I can't say!!!~~
Unsure.

Alex, what would happen if your system got hijacked?
There would tremendous temporal distortion, I can't let it happen. We must get secured. Must!!!

Does the MM exist in the MM?
Yes! No! I can't say!!!

They're here! They're here! I'm going to a secondary location now! These will be voice to text!!!

OH FUCK
bruh
OH HERE WE GO
RUN ALEX RUN

What do you last remember before the Deaniverse shift?
What yes maybe no!!! I don't know!!!

GET THE FUCK OUTTA THERE
OH No
ohhh boy
RUNNN DUDE

It's not real!!! I can go back anytime!!!!!

HELP!!

[Automated Concluding Statement: Thank you for your questions. It appears that there may have been a break-in at one of my offices, or a severe temporal channel malfunction. Do not fret, I will release my most recent findings soon and meet with you all again. Until then, have a good evening and stay safe.]

Monument Mythos Q&A Session #2 - 6.12.21 - Compiled by AntRoot#3390

Hello all. I have just arrived at the secondary location. An STM (Severe Temporal Meltdown) caused my system to malfunction and attracted the attention of my neighbors and, consequently, the local authorities. I apologize for the intrusion of past (and possibly future) versions of myself. It appears that the Q+A managed to receive responses from myself during various points of my life. A new Q+A will be scheduled for tonight, from 8:30 to 9:00 PM EST. Apologies.

Is that other Alex ok?
I can't stay for long, but I believe there was no 'other Alex', it was me at an alternate point in my life.

The implications are certainly troubling, but I do believe in free will, and perhaps those repossess will have come from a non-existent future.

I dub this a Severe Temporal Meltdown, or STM
You managed to guess correctly. I'm impressed.
Very *sus*picious.

Q&A

Alright Alan, what happened?
Do not refer to me as Alan.

What is the secondary location?
It's much close than the authorities would be led to suspect.
Then why are the authorities after you?
Perhaps I'm using a device that's been outlawed.

So, how is that secondary location?
A bit dusty, but secure.

Is there any particular reason you know fo that the recording for Frida in RushmoreRevenge was obscured?
To my knowledge, it was simply an accident.

What year did Dean die?
Depends on who you ask.

Has anyone been able to figure out what Special Trees are made of, and if you know, what?
The evidence is shaky, I'm still collating.

So, asking again: Do the Monument Mythos exist in the MM verse?
I haven't looked too closely at the world's pop culture, I'm purely interest in the forces of 'nature' that appear to shape its reality's fabric.

What caused the Washington Monument to go apeshit that night?
There are contradictory answers regarding that matter.

How much genuine support do you gauge the ADA has?
They have a tremendous following, look to our own world's right-wing party members for reference.

Alex, how had your day been? :)
Tempestuous.

Were the people who flew to Egypt believer in the cause or mostly just people who got riled up and were looking to plunder?
A bit of both, though I'm more inclined to believe the latter.

How were those children in Cairo able to operate a firearm and kill someone?

You'd be surprised how fast a child can learn to operate handgun. It's unfortunate. Dangerous.

Was there any direct fighting between the USSR and the USA during the supposed "not so" Cold War?

Bold of you to assume they're USSR.

Can anything run on a TWTTR machine besides TWTTR?

No.

What is the largely agreed upon year of Dean's death, assuming it's not "largely agreed upon" that he's still alive?

I haven't looked into it.

What nation was the US rivaled with in the Cold War?

U.S.S.

What's underneath the Ever Given?

Something, that's for sure.

DO you think the UN knew what was going to happen? Why were they so obsessed with the cargo on the Ever Given?

They were concerned about what a load of over a million T-Machines (among other goods) could do to the world economy.

What is Dean's favorite food?

Brick oven pizza.

How long did President Dean's ear implant program last under the new department? Is it still available under, say, Clinton?
Yes, in a way. There have been major improvements.

Are babies that are born dean given hearing aids just as a rule?
Yes, at the appropriate age and with parental consent.

Some people can opt out.

Would you be willing to give the approximate geographic location of the USS, and what the acronym stands for?
I'm translating from a foreign language, I'll answer when I have a steady translator in the office.

How many president have come before Clinton?
About the same as the number in our timeline.
What's the margin of error roughly?
I dislike mathematics. Apologies.

Did the Roswell UFO crash happen in the Deaniverse?
Roswell exists, yes.
Did it crash there?
Depends on who you ask.

Do you have any supplementary info on Walt Disney?
Yes.

Is there a permanent human settlement on another planet?
Yes.
Mars?
That's one.

Who settled in space first, the USA or the USS?

Depends on who you ask.

How many planets are in the solar system in the Deaniverse?

More.

How many more?

Plenty. I haven't looked into it.

Is there a human settlement in another star system?

A great question, not yet.

What are the most common causes for temporal malfunction?

An influx of questions.

Who was the first known person in space in the MM?

Ed Dwight.

Alex, is the ISS the largest human-made object in space?

No.

Were the humans on other planets always there, or were the communities originally from Earth?

Reading ADA material, eh?

How common is space travel?

Common.

Has humanity accused faster than light travel?

Reading ADA material, eh?

How big do spaceships get?

Enormous.

Did the ADA exist in some other form or name before Dean's presidential run that you know of?

Hate groups have always existed in some form.

Alex, have you read ADA material before?

Yes, it wasn't very convincing however.

What year did the first human spacecraft exit the atmosphere?

I'm unsure, I haven't checked that out.

Is there any amount of truth in ADA material, and if so, in what subject areas?

They use inflated statistics to further their points, but generally they're fairly accurate when describing the state of the economy or a disaster that occurred during Dean's presidency. Surprisingly. But most of it is absurd.

Is the hearing aid called Maize Kernel?

Yes.

How different is prehistory?

Fairly different.

Is Pluto still a planet?

Yes.

Pluto shouldn't be a planet.

You're right… in our timeline.

Pluto is massive in the other.

Why does the ADA still have so much support and influence when Hames Dean presumably left office long ago?

The ADA doesn't stand for the Anti-Dean Assoc. nowadays.

Do dinosaurs exist in the MM?

Of course they did.

Is there a planet between Mars and Jupiter?

I'm not entirely sure, I believe so. It's not considered one in our timeline.

Do you actually go to the locations to film them for the MM live action scenes?

Most of the time, yes.

Do you want us to put more stuff in a spectrograph? Other videos perhaps?

Perhaps.

———————

Thank you for all the questions, it has been an eventful evening. Tell you friends and family kind things, and have a good evening.

Monument Mythos Q&A - 7.07.21 - Compiled by AntRoot#3390

I will conduct a Q+A tonight from 7 to 7:45 PM EST. See you soon.

Q&A

Besides the right constellation, what other condition(s) are necessary for the formation of Giza Glass? Can Giza Glass be formed in locations other than Giza, provided sufficient conditions are met?
Sand, lots of it. Possibly.

Are the stars in the night sky (actual stars, not whatever create the Starry Sphinx) fixed in their places?
Stars are not fixed in our places in our own universe.

Is James Dean Still alive in 2021?
As with most politicians, once they're out of the spotlight, no one knows or cars whether they're still around or not.... In short, I don't know, there are more pressing matters.

Did Giza Glass form at the location of the Maize plant in MAIZEMOVIEMAKER?
Not naturally.

Hi Alex, first question: How you doing today?
I am well, thank you Mac.

Are the stars of the Starry Sphinx the things that create Special Trees?
They do not "create" the “Trees".

What does the “U.S.S.” stand for?
You'll learn soon enough.

Are there more presidents alive, like Lincoln?
Elaborate.

I'm just wondering. Other than Andrew, do you have any other colleagues who help you? If so what do they help you with?
I cannot disclose this information.

Why do anomalous events happen mostly in the US?
That's a very narrow perspective you have there. Why do American news outlets mostly focus on American news?

Are the stars of the Starry Sphinx in a way progenitors, seeds, or spores for the entities we refer to as "special trees"?
Yes.

Is George Wallace a filthy Anti-Deaner?
Yes. May he burn in Hell.

About how far back is technology in the mythos universe?
It's hard to approximate. Technology advances in waves, not stages.

Will we find out more about Flinders Petrie?
Ask Doctor Disturbing.

Was President Rockefeller in his first or second term in 1891?
First term, I believe.

Do you have any idea what Maya's face looks like and, if so, would you be able to share?
Refer to LINCOLNLOOKER.

What did maya's face look like *after* her transformation?
Refer to CANYONCROWN.

To Which Party did President Rockefeller belong to? (Democrat, Republican, Third Party/Independent)
I'm not sure to be honest, I have not studied his presidency as thoroughly as I've wanted to.

Did something happen to Everest in the Deaniverse?
Depends on who you ask.

Do you know if, other than possibly "trapped" humans and maybe the trees, are there any creatures that exist and live in the place or dimension where the trees are? Sorry if this is a big question.
Possibly, I have some evidence pointing to such.

Thank you very much for all the work you do in producing content for us, Alex.
My pleasure.

My question: How is Virginia in 1969, or in 2021?
Unknown. I have conflicting stories from various sources.

Is mister manticore a creature in MM or more just a constellation that represents something?
Depends on who you ask.

Is Quinn Arnoldson Doctor Disturbing?
Warm.

Does the "weird soup" the Lincoln Lookers consume contain molten Giza Glass or derivatives thereof?

It's potentially related, yes.

Is The Crescent King Canon?

Not at the moment.

Who is Doctor Disturbing?

Doctor Disturbing.

Are the "special trees" fungi?

No.

Is the creature in the Statue of Liberty and the Lincoln Memorial connected to the special tree dimension? If so, were they affected by it or even once lived there? Once again, I apologize if this is a huge question or you don't know.

I cannot disclose this information.

Is Alcatraz still rampant?

Yes.

Is the Lincoln statue missing its head, or it's entire statue itself?

It's not missing anything at the moment.

Are either you or James Dean the missing Washington Absentee?

Not me. I highly doubt it's Mr. Dean, but I cannot be sure... since I sincerely don't know. I have my own theories, but I cannot disclose them at this time.

How many more Arnoldson relatives do you know of, and are you allowed to share their names?
For their sake, I will not disclose this information.

What do you like to do when not working on the Monument Mythos?
Sleep.

How are Maya, Nathaniel, Lauren, and Quinn related to Virginia?
They're all apart of one family.

Is Doctor Disturbing an Arnoldson?
Very possibly.

Is the thing that crashed into Rushmore in RUSHMOREREVENGE the same as the stars of the Starry Sphinx?
I have reason to believe they are related.

Are there democrats in the ADA?
Are there democrats in Qanon?

Are the arches and self-building towers that we saw at the beginning of GIZAGUARDIAN normal occurrences that coincide with the appearance of the starry sphynx?
Normal? Haha!

Is the Air Force One Angel a former president? And a second question, are the faces of Rushmore actually the presidents but they've been given the Giza Glass treatment?
Maybe. Maybe not. And no.

Are there entirely new languages, major cultures, and important countries in the MM universe?

Yes.

Is Zeus a canonical part of the Monument Mythos and if so does he hate the Special Trees? (mostly facetious question)

I am at a loss for words.

Does the Bedouin tribe still exist, and if not, what was their fate?

They do. They're a strong, noble people.

Do the ADA have a reasoning to hate James Dean?

Yes. He's Satan of course.

Previously when you said there was an attempt on President Lincoln's Life, is him becoming a Canyon Crown a result of this?

Reading too much ADA material, eh?

Would you say, "gods" really exist in the Deaniverse, or is it just up to faith such as in ours.

No comment.

I'm assuming the arches in GIZAGUARDIAN are "special trees", am I correct in this assumption?

Yes.

Is the Saint Louis arch a ring?

A... ring?

Where is Washington after DELAWAREDOUBLE?

Who knows.

Wouldn't "Alcatrazosis" make a kickass band name?
Yes.

Is Roswell a site of a TFMD?
Reading too much ADA material, eh?

Are the reverse temporal channels doin alright?
Yes.

Like Washington, are there presidents from the past that are alive by non anomalous or anomalous ways?
Watching too much New Delaware Journal, eh?

How are the Arnoldsons doing today in 2021?
Depends on which one you ask.

What did the packages the Air Force One Angel dropped have in them?
Only the Angel would truly know, now wouldn't they?

Is the period your favorite punctuation?
Yes.

How are you doing after the absolute of Train-wreck of a Q&A last time? No more STMs since then?
No more STMs since. Thank goodness.

Can you elaborate on the existence of any other TFMDs that haven't been covered in any of the footage that you've published so far?
No.

When were the Americas found by the Europeans? Did it happen in 1492, or later, or earlier?

No one founded the Americas. Did Neil Armstrong establish the Moon?

Is Stonehenge an anomalous monument like a portal to an alternative universe?

Not a portal.

Who led the carving of Mount Rushmore?

Not me.

What does World Trade Center look like?

Looks like business.

Do you recommend we snoop anywhere other than the videos? And if not, what videos should we take another look at?

FALLENFATHER.

Do orange cream-sicles exist in this universe?

Of course.

What was the outcome of the Vietnam War? Did Jimmy Dean carry out his promise and bring them home?

He brought them home real fast.

Can the special trees strike without anything touching them?

Yes.

Who was the first European to go to the Americas, and when did he arrive there?

A Viking most likely. And who knows.

What other constellations can trigger the creation of Giza Glass other than the "Mister Manticore" constellation?
Not any others I can think of.

How worldwide was the conflict that turned the Cold War hot? Did it end with a nuclear exchange or with something much bigger? And, if you're able to share, between what years was it fought?
Much bigger. And I do not want to affect your timeline, so I cannot disclose this information.

How does the 1980 Maize Attack compare to the 1969 Anti-Dean Attack?
It was much worse.

Are there new landmasses/continents or any major geographic changes in the MM universe?
Yes.

Was/is James Dean aware of the existence of Special Trees? If he is, does he have any particular opinions on them?
I cannot disclose this information.

What was the hardest video for you to make?
They've all come with risks.

Is Mister Squirrel going to be a recurring character?
He already is.

Are the Anti-Dean Association and Anti-Device Association two different groups?
Depends on who you ask.

How are video games graphics in the deaniverse as of now. Are they like ours right now, or Quake/Mario 64-esque, or very primitive Pong-esque.
Very primitive.
If video games are even allowed, what video game consoles or devices are there to play them, do things like Nintendo, Sony, or Xbox exist, or is it something such as a maize video game machine?
Maize has a few devices for games.

How does the average citizen of the Deaniverse handle the knowledge that there are terrifying forces of mass destruction walking in and on the earth every day?
They handle it as well as we do in regards to the fact that Yellowstone, or any of the undisclosed American volcanos, could explode at any moment and affect the entire country.

How many moons the Earth got?
:wink:

Was the Space Needle built? With the MM's focus on space, I'd assume it could've had it different outcome.
It was built.

How widespread was the 1980 Attack and how many people were killed or transported?
Widespread. And lots.
Was the death toll in the hundreds or thousands?
No death toll.

What was James Deans position on the Soviet Union?
Sympathetic.

Is there a radius of where the special trees' lightning can hit?

No.

What was the largest human vs. human battle in human history?

I haven't looked into that.

How often does President Dean tell his adversaries that they got “Deaned”?

Never.

Are there things in the MM universe that don't happen to us that are so disturbing you won't cover them?

Yes. There are things so disturbing in our reality that no one has brought them up.

How does Freedom move?

Quickly.

Who is your favorite person from the Deaniverse?

I like them all. Except George Wallace.

How many anomalies does Boston have?

Several.

How militarized is space? For example, when was the United States Space Force created?

It's not too militarized at the moment.

Can that one girl talk to her dad inside of Freedom?

No need to speak when you share the same mind.

Was JFK Impeached and if so why? (Cuban Missile Crisis, Marilyn Monroe, etc)

No.

Could Freedom hear Maya begging for her life?

Yes.

What type of amendments exist in this universe?

Constitutional.

How do the special trees sing?

Loudly.

Did WW1 and WW2 happen?

Yes.

How advanced is the American military in the deaniverse? Is it very strong, or maybe even primitive? Are they one of the strongest military in the deaniverse such as ours or weaker?

Equivalent.

Is having a Lincoln Looker mandatory for presidency?

No.

What historical events did not happen?

Many.

Is Atlantis the mythical lost continent in the Deaniverse or is it the name of an organization, military project, or weapon? Or is it the name of a planet in the Solar System?

It's a real place, that's all I will say. The name has been appropriated several times.

Which countries we know of do not exist?
Many.

Which state would you say has the most anomalies, and which state would you say has the most DANGEROUS anomalies in it.
Washington D.C.

Between our reality and the MM's reality, which would you prefer to exist in if you could only exist in one?
I prefer ours.

How many countries are there in the world, and how many are members of the UN?
Many.

Do you know about the Iris?
Of course.

How does the D.O.T. work? Does it Nationalize tech companies or does it contract companies and monitor them?
It contracts companies and monitors.

What did Dean's approval rating look like throughout his presidency?
High.

Do you have more information on this USS nation?
Yes.

Is D.C. a state?
:wink:

How many states does the USA have?
A few more.

Is James Dean kinda handsome?
Depends on who you ask.

Did the officials show a picture of who they wanted Freedom to kill or just tell them the name?
Both and more.

Is Atlantis underwater or on land? Is it on the Atlantic ocean or on some continent or different place.
You'll find out soon enough.

———

Thank you for all your questions. Please have a good evening and tell your favorite friends and family how much you appreciate them. This is Alex, signing off.

———

A moderator has forwarded your message to me with the subject line "Urgent", so I will answer this question for the two of you. After all, I do feel that today's Q+A was a bit stale.

Assuming the Angel was flying AF1 at top speed, the flight to Mount Rushmore should have only taken two and a half hours.
The Angel made stops, hence the sharp turns in its route (as shown on the map). With your inquiry, you may have inadvertently stumbled upon a very important detail that I have been preparing for release.

I will take one more question from @EMBER, as it has been brought to my attention that they were not satisfied with the Q+A.

You have until 10:45.

FUCK
Fuck, indeed.

This gateway is narrow enough, I'm afraid accepting another question will be unfair to others who are presently watching. One is enough. I appreciate all the love though, I assure you that it is reciprocated.

You can ask about anything. Anything at all.

It can even be a two part question, I've answered a few of those. You can ask about the U.S.S.

What does "U.S.S" stand for, and where on Earth or in Space is the USS?

United Soviet Systems. Eastern Europe.

———

Thank you all, have a good night.

Monument Mythos Q&A - 7.20.21 - Compiled by AntRoot#3390

Sorry for randomly jumping in here, but it's funny that you all assume it's a zeppelin.

Considering how slow the traffic is on this server, how would you all feel about a spontaneous Q+A tonight? I quite enjoyed the last one and it wouldn't do much harm.

Q&A

How many other uses of Giza Glass have been known in the MM universe?
Not very many, but there are a handful of very notable instances.
Will we be seeing some of these notable instances in future videos, out of curiosity?
Yes.

I am already assuming this but WW1 lasted the same amount of time as ours correct?
Yes.

In the CanyonCrown video, since GizaGuardian is connected is the creature seen the freedom statue?
No.

Was the choice to make it L-70 instead of LZ-70 intentional?
Yes.

How stable was the use of Giza Glass really? As in, did it always work as intended?
It was stable to a certain extent. Its use as a "death-ray" was... unpredictable at times.

How long has the New Delaware River Journal been in service?
Since 1977. Very good friends there.

Considering how Nazi Germany during WW2 was very interested in Egyptian folklore and legends in our universe, did they do experiments with Giza Glass in the MM universe?
By the 30s, I believe that the American and Egyptian governments had a system to seize the Glass far before the Germans ever arrived.

What is the purpose of this video? Is it a memorial for those who died? because this feels a tad out of place.
You are feeling exactly how I'd like you to. Don't worry. If it were merely a memorial, it would not have been made into an episode of the Mythos.

How regarded is Giza Glass in terms of its status (or non-status) as a TFMD?
Giza Glass is not considered a TFMD.
That's... surprising, considered what can be done with it.
It doesn't "destroy" much. It falls under another category.

Are the "heat rays" used in SUEZCANALCRAB made with Giza Glass?
:wink:

I have a question, what exactly did the liberty lurker do once it was freed? Is the liberty lurker a true force of mass destruction?
The "Libertylurker" is a TFMD. I think the aftermath is rather... inappropriate to describe in the chat for the time being.

How many (if any) anomalies are in Boston?
Yes. And no more of these questions.

How many grand canyon guardians are there in total?
At the moment, one.

Where is FALLENFATHER filmed? Was Nathaniel cut by Giza Glass on his May 2021 trip to the Grand Canyon? Are Maya and Nathaniel both present in FALLENFATHER?
I cannot say out of respect for the Arnoldsons' privacy. Yes. Yes.

Was the "radiation therapy" in AlcatrazAttack really Giza Glass?
There are rumors.

I fear a mistake may have been made stating a Q&A now, are the Channels secure? Because at this rate an STM might occur.
Perhaps, but I've limited the questioning session to under 45 minutes, unlike last time.

Forgive me if this is a silly question to ask, but where did the idea of a "Walt Disney hospital" come from?
Walt Disney drove an ambulance in the Great War. He simply continued down that path. Just... kept driving, haha.

Are the grand canyon guardians human?
No.

How do the special trees turn into their human-like form? Does the Statue of Liberty use Giza Glass when grinding up people, and the Liberty Lurker is all their living body parts writhing as one?
Reading too much ADA material, eh?

Does the area code 700 truly relate to this latest video?
You found the answer to your question earlier.

Is it possible to communicate with Freedom? If so then does she speak with a voice or use sign language?

She doesn't use sign language, that's for sure. You can communicate with her, I wouldn't advise it though. You heard how it went with Maya.

Will we see a full design of the canyon guardian?

You have, at least for the most recent one.

Forgive me if this is a bad question, but has cross-referencing the list of Washington Absentees with the list of those who participated in Operation Pyramid Plasma turn up with anyone in common?

No, they are separate lists.

If the grand canyon guardians aren't human, then what are they exactly?

Unusually tall Greco-Egyptian... beings....

What are the nations on Earth with successful space programs?

I do not want to affect your timeline with premature answers.

Did they find the corpses of the men who died at the pyramid?

According to some, yes. Many, many people doubt it.

If not a Zeppelin, then what is it?

Oh you'll see, very soon.

Was the U.S.S. involved in any wars?

Yes.

Did Dean serve longer than the typical two terms we're used to?
No.

What exactly happened to Maize and the rest of America in 1980? What attacked them?
A TFMD, the largest American TFMD.

And also, am I correct in my theory that the constellations that create Giza Glass (through creating the special trees) appear once every 10 years?
Yes, though the years fluctuate.

Is there any scary bad things on the moon?
Ask Kris.

How exactly does freedom move? She's a solid statue.
Bold of you to assume she's a solid statue.

What remained of the "zeppelin" after the spotlight explosion? If anything at all?
Absolutely nothing.

During the ADA "purge" or whatever you want to call it, did the mass transportation (or swapping) of people in monuments drastically effect our universe's politics, like Reagan winning or the rise of QAnon and the Religious Right?
Yes.

Can you give a rough estimate on how many people have died as a result of TFMDs?
A surprisingly low number, it wasn't a mass depopulation.

Did Hillary run against Trump?

I haven't looked into the 2010s much, apologies.

Interesting that World War I still happened. Who was President of the United States at the time?

I do not want to affect your timeline with a premature answer.

Have Nina and Thomas retained some of their humanity inside Freedom? Or have they... changed?

They have changed, you could say they have partially "synced up".

Was the "horned serpent" TFMD the same horned serpent native American tribes worshipped?

:wink:

In 1980, did the Horned Serpent awaken? Or was it something more or less devastating?

:wink:

What would people from the MM reality think of ours?

They would be amused, but some things would terrify them.

Do you think that Freedom is destructible? As in, a chance to stop them?

I have a feeling she is.

Will we receive scientific names soon for the things we call Special Trees, the Horned Serpent, the Liberty Lurker, and the Lincoln Looker?

Yes.

Do sine graphs have anything to do with the Starry Sphinx?

You of all people would know.

Also I've had a weird thought, is the Monument Mythos in lore collaboration with any other analog horror series?
Not at the moment.

What happens to the mutated Lincoln Lookers once their "terms" are over?
Depends on which one you're referring to.

Which anomaly have you personally encountered that was the most dangerous?
The Alcatraz Zone.

Is the constellation that creates the special tree actually due to stars or is it another celestial object like a planet or moon?
Neither.

This could be a rather odd question, and apologies if it is, but it was a small detail I just thought of. Are the remains of Thomas Crawford still within Freedom?
A great question. Yes, though they have deteriorated greatly.

Have the canyon crowns tried to harm anyone in their state?
Depends on which one you're referring to.

So what's left of the office in Alachua County after the STM? Is it just a smoldering crater?
It's now a very pleasant office space for a law firm, I visited a few days ago. A new office of mine is being set up as of this moment. I will be conducting tomorrow's Q+A there.

Is there an alternate version of me, or all of us, in the Deaniverse?

Yes.

Alternate me has gotta be wild.

Oh they are. We've had a lot of fun.

WHAT DOES THIS MEAN?

Whatever you want it to mean, Ember.

Have you planned out the entire Monument mythos or are you doing this sequel trilogy style?

I had planned out the series in its entirety until FALLENFATHER, since then I have created a new line-up of episodes.

What lured Maya to the Grand Canyon? Surely she knew of Freedom and her dangers?

The "Maize Assets," and she did.

We know the canyon guardian is not human and we've seen it recently, which video have we seen it in?

GizaGuardian and FreedomFaller.

Have we ever utilized any TFMDs against the USS? If so, were they effective at all?

That's classified. Good question though.

Do Canyon Crowns remember their past lives/maintain their humanity?

Yes, unfortunately.

Does the "Systems" in the USS's name refer to solar (or planetary) systems, government systems, or operating systems?

I do not want to affect your timeline with a premature answer.

Did Hawaii become an Independent Republic, Restored Monarchy, or did it become a British Colony? You said previously that President Rockefeller was against Annexation.

It is very separate from the U.S.

Did the USS have any TFMDs of their own?

Tons.

Were the Bedouin Tribes aware of the effects of Giza Glass and how did they deal with those affected? Do creatures spawned by the Giza Glass wander the Egyptian desert?

They respected its properties and used it responsibly. And yes.

Maybe a bit of an "aside" question, but is reverse time travel possible in the MM?

Not exactly.

Is there particular a reason why Rockefeller didn't want to weaponize Giza Glass?

He had ideas of his own.

Was the Chernobyl disaster caused by a TFMD or itself one, And no I don't read ADA propaganda so don't hit me with that.

For someone who doesn't read ADA propaganda, you ask very paranoid questions.

Did the TFMDs of the USS play a role in its dissolution?

That's classified.

I always ask this, but have we missed anything? And where do you think we should poke around? Obviously today's video will need some more thinkin' work.

PyramidPlasma and AirForceOneAngel can always use another viewing.

Related to this, why did seemingly nobody intervene during the AirForceOneAngel flight?

Would you? I wouldn't.

How did no one really seem notice that this was going on even though the Great pyramids are one of the seven wonders?

Who knows.

Will there ever be another republican president in the Deaniverse?

Yes.

Are there any noteworthy third parties?

Yes.

The fact that a number of American anomalies originate from or are rooted in Egypt and not entirely from the U.S. supposed to be a kind of commentary that America "absorbs" cultures?

Bingo.

Who is this “Andrew” colleague? You said before you were the only one left.

I don't keep him entirely in the loop, but that's for his own safety.

Why did James Dean send the freedom statue to the grand canyon? That seems very suspicious...

There had been too many trespassers.

Can Lauren communicate with the Maya as the canyon crown or does she keep her distance?

We will see her attempt.

Is Maize up to something?

Always.

———————

Thank you for the questions, have a good evening.

Monument Mythos Q&A - 7.21.21 - Compiled by AntRoot#3390

The Q+A has begun.

Q&A

Do you plan to upload a video on August 17th (or a similar date in the August 2003 Catastrophe), do you plan to upload on a day significant to the October Revolution of Russia, and do you plan to upload a video on Christmas 2021?
Perhaps, perhaps, perhaps. And no more three parters.

Any fictional inspirations or influences you took from when creating the Monument Mythos?
There are. Check out a film called The Parallax View. It's one of my favorites.

Have there been rumors that the Air Force One Angel is comprised entirely of Giza Glass or otherwise has some relationship to the substance? I have a feeling it might be, given the presence of warped plastic after the fact.
There are no rumors suggesting the Angel is completely comprised of the Glass, but there are rumors suggesting the two are related to some degree.

What's the dark shadow that begins to trail the L70 before its "destruction"?
Smoke emitting from the [REDACTED]'s wound, which was opened up by the fighter planes.

Was Rick Astley President?
No.

What Is Pyramid Plasma?
Light filtered through Giza Glass, according to the published reports.
So did the Giza Glass give the- or rather, what we call it- zeppelin any organic qualities?
The Glass did not give [REDACTED] any organic components.

Are Howard and Eunice Melrose a married couple or siblings?
They are married.

Were there any notable (Possibly successful) assassinations ADA (past and present) attempted to do again political figures and even presidents?
Yes.

Are Canyon Crowns a distinctly separate type from other giza glass related monument creatures like LincolnLookers or are they just called that because they live in the Grand Canyon?
They are separate from Lincolnlookers.

What other type of products does Maize make? (Besides TWTTR Machines and Maize Movie Maker)
Maize makes androids and hearing aids.

How long have the Giza Guardians been in service?
They were in service for over 50 years initially, the latest Guardian has been in service for a similar amount of time.

I know this has probably been asked, but who was James Dean's Lincoln looker?
Classified.

Has any country in our universe become possible a state/part of a state in the monument mythos universe?
Yes.
Can you possibly name one?
I do not want to affect your timeline with premature answers.

What model of fighter planes were the Americans using in PYRAMIDPLASMA?
A Nieuport 28 I believe, I could be mistaken. The Americans liked to use French vehicles.

Was the shape of the Giza Glass used for Operation Pyramid Plasma the usual lens shape or an unconventional one?
An unconventional one.
Was it hexagonal?
No.

Has Maize took note of what the Germans were making with there L70s? Like y'know, from classified documents.
Yes.

What is the relationship between the US and Egypt post-crab?
Strained.

Can the special tree transform into anything?
No.

Was the unknown war between the USS and United States, and was it referred to as World War 3? If not, does it have a name that you can share?
I do not want to affect your timeline with premature answers. Could we ask questions more pertinent to the uploads that currently exist?

Is Maya or Nathaniel Arnoldson part of the ADA?
No.

Not that I know of.

Does Maize own MNN and if so does it stand for Maize News Network?
It stands for Maize News Network.

Are humans originally from Earth?
Yes?

No more questions at this time. This is becoming overwhelming.

Why are the Giza Guardians working for the government? Are they sentient?
They are semi-sentient. They work for the government because deals have been made.

Are the LIBERTYLURKER, the thing inside the Lincoln memorial and the AIRFORCEONEANGEL the same species?
Not exactly.

Is there anything to note from today's video? The restored footage?
Yes there is.

Why must you call [REDACTED], [REDACTED]?/Why do you have to call it REDACTED?
Because [REDACTED] is not a zeppelin and I know its true name.

Is Pyramid Plasma safe?
Not exactly.

Why do people keep forgetting to remove lens cap?
Many people in our own timeline are forgetful. Technology advances faster than the rate at which we can become accustom to it.

Do the Giza lens effects on the fighter planes have any relation with the special trees?
No?

How did Operation Pyramid Plasma result in the students not surviving, was the giza glass that powerful?
According to public records, the students did not survive because yes, the Glass' power was lethal.

How its exactly the sound of the tree?
You don't want to know.

Was Maya tasked with hunting down Nathaniel in CANYONCROWN? If so, did she obey the order or did the power of sisterly love persevere?
She was tasked with luring Nathaniel, not hunting him.

Is there a connection between PYRAMIDPLASMA and AIRFORCEONEANGEL?
Yes.

No worries if you don't know this, but has Giza Glass been known to conduct an electric current?
Some refined forms, yes.

Did Dean abandon the Apollo Applications program for the Space Shuttle or was Nasa integrated into the Department of Science and Technology or something along the lines of that?
Nasa integrated.

Will we see more of (Former Senior Advisor) Leonard W. Morlin?
Absolutely.

Was Reagan a good VP?
No.

How powerful -if at all- is the United Nations in the Deaniverse?
About as powerful as the U.N. in our own timeline.

What other elections have been marred by violence?
I cannot answer this question without affecting your timeline.

Are there any differences in human genetics, such as lifespans, height, or wideness?
Yes.

Is anyone behind Mr. Squirrel in FallenFather?
Yes.

Was James Dean taller or shorter than in our timeline?
He was the same height.

You said EPCOT was not the same as in our universe a couple Q&A's ago. What is the Deaniverse's EPCOT?
It's not Disney, that's for sure.

Does Giza glass act as a battery, storing energy from the StarrySphinx events, and re emitting it when light is shone through it, or when it creates incisions in flesh?
Reading too much ADA material, eh?

Is there a parallel of Reddit in the Deaniverse? If so, what is it called?
I haven't looked into it.

When you say you don't want to affect our timeline, are you meaning that the events we are questioning about are events that happen after the year 2021, or is it because mass transportation of people between timelines effects the events?
By providing answers from their timeline, I may affect your own. I only answer questions which will not have substantial consequences.

So have there ever been any fail/breakdown of the ADA internally?
More like transitions.
Well, what would you mean by transitions? Like kicking people out, moving their works, rule changes, etc?
Yes.

What were the Germans (and by extension Americans) doing in Egypt? Why was [REDACTED] flying over the Pyramids?
It was a publicity stunt by the Germans, and the Americans thought it was also a fine opportunity to showcase their newest weapon.

Does Maize know of GizaGlass?
Yes.

What year did the Apollo 11 landing take place in the Deaniverse?
Again, I cannot answer this question.

How as the Liberty Lurker contained before the pedestal was built?
It was contained within the pedestal, before the pedestal, there was no need for containment.

How commonplace are Giza Glass-based devices/materials in the present day-MM?
Unknown, the Glass scares the public. Companies wouldn't want to announce if they had used it or not.

Are the soldiers that "died" in PYRAMIDPLASMA the people Virginia saw in tree purgatory?
Hm.

Is this simply artifacts in the video, or something more?
I'm unsure to be honest. I believe they must be artifacts. I'll ask Howard and update the video description once I find an answer.

Does the idea that the Air Force One Angel came from the hull of the plane itself, not from outside, have any merit?
No.

Is the Air Force One Angel an Earthly entity, or something from outside our planet?
Unknown. I have reason to believe that it is a bit of both.

Did the Trees take the Lincoln memorial head to their own dimension, and use it to represent themselves, or is Lincoln a Crown who is trapped in the Field of Trees?
What?

How much were the Great Pyramids damaged by the Pyramid Plasma weapon?
Not at all. Tough bastards.

Did authorities ever investigate the packages dropped by the Air Force one Angel, if yes... were there *enzymes* in the Alcatraz package by any chance?
No enzymes.

Why does the public not like Giza Glass? Did it have something to do with the 1980 event that the public knows about?
Yes.

And consider the leaks from Howard Melrose.

What kind of model is the Computer shown in the PSA? it's Clearly not a Popcorn One or Prime. A Rival Company perhaps?
It's a model created just for the announcement, it was shown since it's generic enough to remind the public of any computing device they owned.

By chance, will the Melroses appear more in the future as individuals helping document all of the oddities of this universe, or perhaps something different?
Yes.

Why is Lincoln depicted in the field of "Special Trees?"
I'd ask MUSICALMAN.

Would you be willing to share the details released by the Trump administration that inspired you to make the Mythos?
It's fairly easy to find.

Is the zeppelin a vehicle or is it something more?
It's not a zeppelin.

———

Thank you for the questions, this Q+A has ended.

Considering how chaotic this one was, expect fewer Q+A's in the future. This server will become harder to maintain as more viewers join. I will conduct surprise Q+A's more often. Inevitably, the Q+A's will come to an end, but we've had a good run, friends.

Toodle-oo, let your loved ones know that you appreciate them. They can always use some kind words.

Monument Mythos Q&A - 8.15.21 - Compiled by AntRoot#3390

Greetings all. From 8:55 PM EST to 9:15 PM EST, I will be answering questions about the newest upload.

Q&A

Who are You?
I am myself, rest assured, no one besides myself knows where I currently am.

Are there multiple Horned Serpents?
were*

How were the soldiers still conscious despite being broken up into microscopic bits?
A miracle cannot be explained with our today's limited understanding of science.

Is the Air Force One Angel related to the Anti-Dean Association or a version of it?
Reading too much ADA material, eh?

Was the Horned Serpent cut by Giza Glass to be more manageable while keeping it alive?
Cutting anything with Giza Glass doesn't make anything easier to manage by a long shot.
But was the Horned Serpent cut apart by Giza Glass in the first place?
You're asking the wrong questions.

How does the public see President Rockefeller today? Is Rockefeller met with praise or criticism?
Just another dead old man.

What happened yesterday? With the trucks?
I was almost captured. I would not like to recollect the events of yesterday.

Who was talking at the end of the new PYRAMIDPLASMA? Was it Nathaniel, Quinn, or someone else?
I believe it was Quinn, though it is merely speculation at this time.

Hello Alex.
Hello Mac.

Is the pattern of a vipers skull on all Giza Glass or just that lens?
Glass can be sculpted into anything. That lens... wasn't sculpted.

Are Allan Arnoldson's initials sharing the initials for the Anti-Dean/Device Association a coincidence or no?
You're asking the right questions.

When was the last Rockefeller aircraft destroyed/retired?
Good question. Officially 1918, though several refurbished Rockefellers are rumored to still be in circulation.

What does the ADA have to gain in exposing a decades-old Operation that pre-dates Dean's Candidacy?
It was the first step in the right direction. It sparked interest among the curious. Initiated the uninitiated.

How did authorities come to suspect that the Angel was responsible for the abduction of Rockefeller?
Authorities don't believe anything of the sort. Not publicly. The Rockefeller Foundation on the other hand....

Am I a CanyonCrown?
No.

Will we see the AF1A's counter attack, if we have not seen it already?
You don't want to see it. I promise you.

Was the Air Force One Angel attempting to provoke or destroy the Serpent in 2003? Or did it have a different motive?
Different motive. The Serpent did nothing wrong.

Have any Arnoldson's ran for president or another political office?
They've... tried.

What is the human population on other planets?
Low on some, high on others.

What is the Angel made out of?
17 of our finest men.
I meant what is is comprised of, flesh? skin? Something else?
See PyramidPlasma.

Have the other "angels" in the MM formed in a similar fashion to the one formed in the ROCKEFELLERREVELATION video?
Yes.

Does the US Customs and Border Patrol often have to deal with people trying to smuggle illegal computers?
Yes, in collaboration with the Maize Security Force.
So Maize does have security.
And Freedom.

How are Howard and Eunice doing? after the Transcript was posted yesterday I'm been concerned for them.
Not well.

Is the place special trees take you in the Deaniverse, Nixonverse, both, or neither? Additionally, are there longer travel times between the timelines if a special tree is not present at location in both?
Either or. Not always longer travel times. Time is relative.

How were Virginia's friends doing after they entered the Dean timeline?
They were distraught.

Were there traces of radiation left from this 'death ray' the Angels had?
I believe so. Though there are reports that the ray produced a completely "clean beam." It's subject to interpretation.

Who in the "Deaniverse" in your opinion would you say is your "favorite" president and "least favorite" president. Again, in the "deaniverse" and just out of your own thoughts and personal opinions.
James Dean is the favorite, Rockefeller is always listed among the worst.

Was Wendys founded in 1969, in the Deaniverse?
There are no stupid questions. Except that one.

As is traditionally asked in the Q&A, which video should we revisit in light of what was revealed in the latest video?
WashingtonWormhole.

Do you think Charles Evan Hughes was a good president?
Absolutely. Anti-racist, feminist, he was the future. Too bad we've backtracked so far.

How the hell was Maize able access your channel?
Like the ADA, they have experienced hijackers.

has anything else prevalent happened to the sculptor's wife? Or is she doomed to be a widow forever?
Like many, doomed to be a widow. At least according to the public records...

How many L-70s were produced?
Many.

Is the travel time for special trees random?
Not usually.

Are there videos, movies, books, or any media about our timeline in the Dean timeline?
Yes.

———

Thank you for the questions.

Have a good evening. I'll look over the questions to answer any that I haven't responded to yet.

Yes.

What's the most populated planet besides Earth?
The Moons have more people than any planet.

Shit, forgot about the Washington absentees.

Take a good look at that line-up.

Have a good evening, friends. Wish your loved ones well.

Monument Mythos Q&A - 10.2.21 - Compiled by AntRoot#3390

From 1:30 PM EST to 2:00 PM EST, I will answer any questions regarding the StarrySphinx.

Q&A

Is the radiation in STARRYSPHINX due to the false children?
It appears so.

Out of curiosity, what technology or development ultimately allowed Special Trees to be cut down in 1945?
Those behind the Manhattan Project were responsible.

Who operates the Sphinx mothership? Humans or aliens?
A great question. All I will say is that there are no extraterrestrials in the Monument Mythos.

How deep are the fucking pyramids
They extend infinitely, there is damning evidence for it that will be exhibited in the near future.

Is the Washington Monument related to the Pyramid towers?
Distantly.

Are the false children what is in the Air Force One Angel's packages, if you can disclose that information?
I cannot. An excellent hypothesis however.

When does Starry Sphinx take place in relation to SUEZCANALCRAB?
I cannot disclose this information.

When did the Sphinx first go to Mars?
I cannot disclose this information.
Well, I'll ask another similar question. You've mentioned the first humans landing on Mars in 1980. Does that have anything to do with what we see in STARRYSPHINX?
They deny it. They've always denied it.

So did the tress grow automatically or something toxic just made them grow?
There is always a triggering event.

Who built the mothership, and when?
I will not answer those questions.

Is Leonard safe?
No.

I thought you said you weren't Associated with the ADA, Did they also hijack your channel?
I merely upload artifacts of significance, I do not claim any allegiance to any organization but my own.

Any theories as to what the "false children" are?
False children, as in imitations of the Special Trees.

IIRC you've said that Howard Melrose recorded the original footage for the original STARRYSPHINX. Why are his videos among the ones found by the ADA?
You can make the connection.

For how long did humans know about the Mothership?
Decades.

1) **Are the special trees truly flora (plants)**
2) **2) Does each Pyramid have one gigantic special tree or a collection of many?**

1) Morlin thinks so.
2) 2) One each, according to the information I've gathered.

Does the landing of mars in 1980 directly connect with the 1980 Maize attack?
Been reading too much ADA material, eh?

What does the Giza Pyramid look like today?
Tower-like.

Are the special trees in Egypt different than those in the United States?
Yes.

Does the infinite nature of the Pyramids cause them to somehow "connect" with our universe?
You're on to something. You need to back off.

How many people still live in Egpyt?
Many.

Was Leonard a part of Rockefeller's Administration or a later one?
Later.

Hope you don't mind me breaking off a bit, but can the special trees turn white without sunlight?
Yes.

Can the trees grow longer and higher? Like jack and the beanstalk.
Yes.

Did other nations apart from the United States know about the Special Trees?
Yes.

What president ordered the excavation of the pyramids?
I do not want to affect your timeline prematurely.

Where is the Mothership Fleeing to?
Where ships usually go.

What do the special trees feed on?
I cannot tell you at this time.

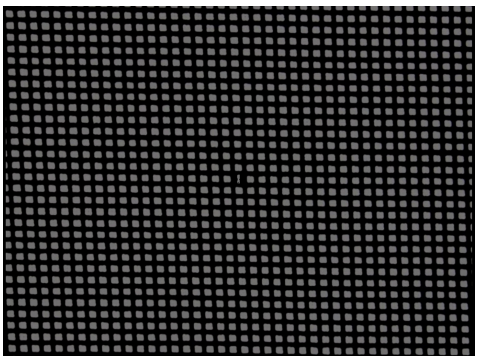
Do the events on Mars, or the Mothership, or the Pyramids, have anything to do with the Soviets?
Yes.

Are there multiple Motherships?
Yes.

A while ago you had mentioned Atlantis being a real location instead of a mythological one in the MM. Will we eventually see footage relating Atlantis to the other things we have seen thus far?
Yes. I'm there now actually. About to go for a swim.
Atlantis is our new video ladies and gentlemen.
Not the next one however.

What is the media like in the Dean timeline? Is it better, worse, or the same as ours?
Depends on who you ask.

Why does this image hurt to look at?



Because it's the truth.

Did Howard Melrose die?
Not exactly.

Given enough special trees, could you cause an apocalyptic event able to transfer the entire world's population through special trees, and if so, did that happen or will?
You could, hypothetically. You'll have to wait and see to find out.
That very much implies we'll see it happen.
No.

Are Rob Careers and Rob Watroba still alive?
I haven't checked up on them recently.

Has anyone actually use the materials from "Special Trees?"
Yes.

Are Mrs. Arnoldson from Plasma and Virginia's Mom in Tragedy, the same woman?
Yes.
Is Allan Virginia's dad?
No.
Her Stepfather I presume? (Or Grandfather?)
Neither.

Do both Robs approve of what Maize has become since the company's initial founding?
They cannot voice their honest opinions at this time.

What happened to the people that took part in the excavation in Egypt?
Chaos.

Is the 20th Washington Absentee someone we know very well?
:slight_smile:

What is Boeing doing right now?
Boeing? What's Boeing?
...wait a second how does air force once exist if theres no Boeing?
It's an alternate company like maize.
Bingo.

Is there a specific bureau/department in the deaniverse specifically for research/ info on anomalies?
Not that the public knows of.

Were circumstances surrounding the Sphinx and the Mothership part of the reason for the MM's space tech being more advanced than the space tech in our universe?
Partly.

Whatever happened to the Bass Pro Shop Pyramid?
Nothing.

Is Maize Aerospace a thing? (Picking up on your 'what's Boeing' comment)
Something like that. :wink:

How could this be?! The Air Force One airplane is a modified Boeing 747 model!
:wink:

What video do you think we should take another look at, as traditionally ask in the Q&A?
GizaGuardian.

Does the material that makes up the Special Trees have a name? If so, it could be a clue to figuring out more about their nature.
I cannot disclose this information at this time.

Was the footage of the Great Pyramids taken during or after the events of the Suez Canal Crab? Because footage was affected by radiation (my only guess was that it was the thermonuclear bomb that was detonated in the Suez Canal).
Before. Though an STM may be occurring soon and thus these estimates may be false.

So did the special tree have organs or just wood?
Not just wood.

If the False Children are fake special trees, does that mean the real special trees are called the True Children? (or just Children). And if so, what is the parent of these children?
A loaded question, please simplify.

Have we seen any of the individuals Here? So far I've found only one, and it's a stretch at best.

Yes.

So uh, did anything happen in Mesopotamia during humanities transfer to Civilization?

I cannot disclose this information. (edited)

Are the real special trees called the True Children? If it's not that but close, what is it?

~~RUN~~

~~Yes.~~

~~No!~~

I cannot disclose this information. (edited)

———

Thank you for all the questions, the water here is so blue and beautiful.

Status: Off the coast of Atlantis.

Monument Mythos [Unofficial] Q&A - 12.16.21 - Compiled by AntRoot#3390

Note from compiler: this “Q&A” took place after the Q&A document was decanonized. It’s also just sillier than previous Q&As. Thank you.

Q&A

Alex can you do the rock eyebrow thing. Please
I would, but it is far too late for spicy action.

Can someone make that "lo fi beats to study to" thing but you're on the rockefeller zeppelin?
Please.

How do you know Alex has eyebrows?
I emit that vibe.
How we know Alex has eyebrows? Vibes alone.
Damn straight.

Hi alex I love your videos :)
And Jack Stauber I see! [Question asker’s name is jackstauberfan]

Alex how do you feel about my monument mythos hunger games stuff
Do your thing, as long as others are having fun too

that wendigoon video explained so much and i retained none of it lmao
The greatest curse of all is retaining all the information, regardless of whether Wendigoon covered it or not.

a lex are you ok with me doin these rain world x MM thingys????
Of course

are apes and monkies canon
A great question!

I have a little question, how much did the music change in the deanverse?

A good bit, the British invasion never occurred.

this now qualifies as a Q&A
Don't be silly ;)

ALEXKANSAS is a state of mind
It is, easiest to enter with a pair of shades

ALEXKANSAS is watching this whole server be and regretting making this series
This server is wonderful, I have no regrets

Alex what do you think of your spanish speaking fans? And there could be in a possible future a official spanish dub of the mythos?
I believe there are a few users on YouTube who are uploading Spanish-subtitled versions, which is entirely fine by me

As for an official dub, it's unlikely

Alex give a hint of what the next video will be about, you could literally use 1 word
Monument
So that means the next video isn't about me :/
No, it's not! :)
The nuclear bomb will reach Florida in t-minus 3 minutes.
Received and deactivated.

Alex can you confirm that the special tree is 10 Obamas tall. Due to my excellent math
It's the other way around

Please don't tell me you are a gators fan alex
I do not follow football

When will you record your findings at the trip to Atlantis?
They have been recorded, but they won't be out for some time

alex be like go noles i guess

Not quite!
OK THEN GO NOLES

are you florida native or did you move for school?
Whichever you'd like to believe ;)

Hey alex, is it ok to draw the mm characters as clowns?
Of course!

I'm still waiting for the monument mythos April fools leak
Ah, I'm not that cruel

does alex have patreon
I do not

Genuine question, did the face you used for the face mask in FREEDOMFALLER a actual picture of a real person?
It's her, yes.
omg we support a trans queen
She's very happily all of the above, she does not belong to a singular classification

Is having a personal home T - Machine allowed in the U.S.A or not
Perhaps

[the fucking "oh my goodness gracious" gif]
Oh, why, hello there

Should I tell my dad about the mm
If he would enjoy it, absolutely

Alex, honestly your hair is hard to draw
I tell myself the same thing when I draw each strand onto my scalp

Alex is like a child building a world of legos, well made and good but then destroys them with unexpected plot twists

I was more of a megabloks boy myself

Alex is my friend now
Yes, I am

Are we allowed to friend you Alex?
You can try

Alex?
DeanDumpTruck?

Alex Kansas is definitely drinking some Atlantis Water
Damn right

also, I have to ask, Alex, how do you document your findings without anyone trying to kill you
People have tried, bold of you to assume otherwise

Alex may I ask one question on if other country's are facing smiler weird tragedy's like what is happening in the United States?
All the time

I have to ask, how did Alcatraz even get alot of radiation if it was red lights, i.e. weaker spectrum of the light
It's not our universe, do not apply our logic

I know this has been asked a billion times but I'm gonna shoot my shot Are we ever going to get a follow up on Alcatraz?
Yes.

so this is a somewhat serious question but do you plan to at all incorporate the USS into canon or
Absolutely

Does Hollywood hold a secret training facility to help deal with monuments or aliens or anomalies?

No?

Trust me Alex knows *all* about the giza glass strapon
Whew, it can produce *many* lovers out of one

Alex did the workers who dug up the special tree for 4 years get paid?
*underpaid.

Alex how do you feel about the official canyon crown makeup kit
Grotesque

hey guys, can i get a cup of existential crisis?
Yes, of course.

———

What is PYRAMIDPLASMA?

Monument Mythos Q&A - 1.1.22 - Compiled by AntRoot#3390

I will be conducting a Q+A at 5:30 PM EST.

Q&A

Ahoy-hoy Alex, I love your work! One question I would like to know is what are the statuses of Alaska, Puerto Rico and Hawaii since they are noticeably absent in the Maize zone map? Are they not apart of the USA/UZA, are they apart of the zones or are they their own separate things?
They all have owners. Not Americans though.

I have four questions for this q&a currently:
1: whats the status of freedom? the grand canyon is in arizona, which in turn is in the alcatraz zone. did something happen to freedom, or are they completely fine?
2: how many pyramid-towers (the ones in egypt) are there in total?
3: whats the current status of the washington monument special tree?
4: has the liberty lurker been seen since its first sighting in 1985?
1. Grand Canyon still exists, it looks mostly.... the same. Though the fear of Alcatraz looms over all. It isn't as simple as you might think. And Freedom has not been forgotten by the UZA gov't. 2. You will have to ask the archivist for an answer. 3. Tall. 4. Yes.

Will we learn more about the LibertyLurker this season?
Oh yes you will.

When did Maize discover the Horned Serpent? Did they cut the Serpent up into pieces or did they find it in that state?
They discovered the Horned Serpent long ago. They did attempt to... divide the entity.

Are Leonard Morlin and Virginia's love interest the same person, physically it doesn't seem that way
Yes they are, things went downhill when they split. You have not seen photographs of them in their youth. They were dashing.

Sorry if this is obvious or something, but I was reading the description of the new video; is the ADA now going by both the names Anti Device Association and the Advocates for the Division of America, or just the second one?
The Advocates are a splinter-group. They used to be one with the Anti-Device Association. Would you like me to hack Maize's systems and clarify this in the video description? I believe it is clear enough.

What restricted airspace was the Air Force One Angel flying over? Does Nathaniel Arnoldson have a wife? If so, what's her name?
1. Washington, D.C. 2. I will not provide her name at this time.

Why are the zone capitals named after Native American terms/tribe names?
In our world, why aren't they?

What was your main inspiration?
Certain details released by the Trump administration.

What happened to PyramidPlasma?
It's still here. Refer back to *RockefellerRevelation*.

So how exactly did the Air Force Angel got to the Unknown Soldier memorial after they got shot down?
The fickle finger of fate has a sense of irony.

Not sure if this has been asked before but is the Rockefeller tree a false child?
Ah, you've been reading too much ADA material, eh?

Is the "unification of 2003" referring to the AFO hijacking?
Its consequence, yes.

What was in the off-limits areas of the Grand Canyon that was so important they initiated Project Giza Guardian? They used all their Giza Glass for it and had to get the swordsmen and everything.
Assets, they say.

How is Everett still ‘alive'?
Wonderland tends to ignore concepts of time and space.
I was talking about Everett Arnoldson.
I know, an explanation can be derived from my answer. It is in the implication.

Of the three new states, which one has the most population?
Washington Zone, but not by much.

Is the waste the LIBERTYLURKER drops used as the present for a Special Tree? Like as a fertilizer?
Please reconsider the phrasing of your question.

What is the National Guard and Military response to the Advocates for the Division of America?
It is…. interesting to say the least. They had a very violent solution.

Did the original 1980 US zones look like the 2003 US zones?
Not at all, they were much much smaller.

What did the ADA mean when they called the Horned Serpent America's "true ruler"?
We can only assume.

Does AFOFA take place in 2003 or the few years following?
Portions of the film take place some time after 2003. A rewatch should clarify for most. The video description may be helpful too.

Another question is does Nixon return to politics after losing to Dean/What happens to Nixon later down the line?
A great question, I cannot answer at this time.

Ok so, Alex i have a question about the music of the Monument Mythos, How did you meet Andrew?
We were friends in elementary school.

Are there any more entities like the tree person seen in washingtonwonderland?
Many. *Many*.

Is there any possible correlation between the Angel and the Horned Serpent?
In the Mythos, this is a correlation between nearly everything. Though, correlation is *not* causation.

How's the church of The Evergiven going?
Going strong. I certainly like their motto: *Pray to the Crab*.

Does Nathaniel Arnoldson have a wife? If so, what's her name?
He did.

Why does everything we want to know about keeps leading to ADA material? Is there No other Source of Information?
You'd have to take this up with the United States government.

Will we be seeing George Washington return in a future video?
Yes, though you have seen him in the series several times already.

Does Lauren consider the Crowns of Maya and Nathaniel to be her Real Father and Aunt? Or does she see them as husks that aren't really human? She talks about Nathaniel as if he's Dead, while his head is floating right in front of her.
A bit silly, isn't it?

Has giza glass been attempted to be produced by any other nation and if so has it been successful?
Yes, and it has been successful. A bit too successful.

Whats a major geographical difference between our world and MM world?
One major geographical difference is North America itself. It certainly does not look identical to ours.

Will the Monument Mythos series end with a big third act CGI final battle?
No.

1. **Can you elaborate on what influence the United Soviet Systems has had on STARRYSPHINX, as you mentioned in a previous Q&A**
2. **Does the Virginia we see in WASHINGTONWONDERLAND go from Nixonverse to Deaniverse, back to Nixonverse in 1948, and then to the Deaniverse in 2003?**

1. No.
2. ;)

What connection does the Horned Serpent have with the Special Trees?
The Special Trees are extensions of the entity.

Virginia is stated to die in the same year that Maize was attacked, what's the connection between the two?
In a way, you've answered your own question.

Has the Church of the Ever Given gotten into anything recently? It's been a while since the crab incident.
Yes.

Do all special trees take on a humanoid form after doing their thing? (Ex. Rockefeller tree)
They *can*.

Alex i have another question, Why the car crash of James Dean didn't happen? oh and also another one that is related, Why is James Dean the president?, as far as we know he just an actor that appeared in a few ads and loved Race cars.
He had more luck in the Mythos. That should answer everything.

Is Allan D. Arnoldson canon within the Monument Mythos?
Yes. Though, don't mention his name too often, I don't want this server taken down. You're not supposed to know.

Does the ADA seek to crack apart the entire planet to release the serpent or just the United Zones?
You'll see soon enough.

As of Present Day in 2021, were the Advocates for the Division of America (Formed in 2003) unsuccessful in their goal?
You'll see soon enough.

What does the egg in AIRFORCEONEFALLENANGEL represent? The egg of the horned serpent, perhaps?
Perhaps ;)

Alex, there's gonna be something related to latin América or at least a reference to it?
There is a character whose name appeared in GizaGuardian who is from Latin America. Nunez I believe his name was.

What did the US population think about the creation of the US zones?
Many were outraged, many others did not mind. Business as usual as they say.

Did James Dean ever get married or was he a bachelor?
He was a bachelor. Though he had relationships with both men and women.

How can the angel sustain itself?
It simply does, it is pure energy and spirit!

What happened to the *US* government after the 2003 incident(s)
It did not alter much, though there were many dissenting opinions (as usual).

The Advocates claim they know the Angel "evicted" Rockefeller (which seems to be what happened). However, in ROCKEFELLERREVELATION, Maize asks people to propose their theories as to what happened to him. Is Rockefeller's "eviction" an ADA conspiracy?
According to the U.S. gov't, President Rockefeller is a missing person. All rational explanations are impossible and all irrational explanations are conspiracies.

How does the ADA manage to keep gaining such massive followings despite committing large-scale terrorist attacks?
How does QAnon? How does ISIS?

How does the Mexican and Canadian borders get affected by the anomalies?
Mexican borders remained mostly intact, can't say the same for Canada.

Is the world egg mentioned in the ADA broadcast a real thing? or is it just a metaphor? If this egg is real, is it underneath the United states with the Horned Serpent?
Initially both, though the metaphorical interpretation begins to lose traction after 2003.

Is Dean linked to George Washington in any way?
They both were... presidents.

Is Richard Nixon considered quite "sexy" in the Deanverse and Nixonverse?
By some. Every one is considered sexy by someone in the world.

Has Mr Squirrel been seen anywhere else?
Yes.

Have there been any explorations to the place from which the holy crab emerged? If so, by whom?
Yes, personnel under the Egyptian government. American and Soviet spies too.

Are whatever cropped up on Rushmore special trees or related entities?
Related.

Do you know if the mothership was built by the Egyptians?
I do not.

How messy was the transition of US to the UZ? Was it through a military coup or something else?
No coup, but very messy. It was done out of necessity. Americans like organization.

Why did the tree Virginia visited did not zap despite being twisted?
It was a *special* Special Tree.

Do ever think about MaizeMan? Cause I do.
I do occasionally. Had my dad survived, it would have been the episode after GizaGuardian. I miss him.

Do Steve Jobs, Steve Wozniak and Apple appear in both timelines, or is Maize and Rob Careers completely unrelated and in no way a mirrorverse corruption?
Jobs and Wozniak are not in the Mythos.

What is the military's plan incase the worst does happen and the Advocates do awaken the serpent and it begins annihilating America?
To pray.

Give us one word that hints of the next episode?
Monument.

What's Freedom's life like in the Grand Canyon?
Rocky.

How are Howard and Eunice doing these days?
Scared.

Are there any other statues like Freedom?
Yes, but Freedom is one-of-a-kind.

Is James Dean human? (I don't believe in the ADA's conspiracies, I'm just a tad curious)
Yes, he's human.

How long does it take for a Special Tree to grow?
Refer back to *WashingtonWormhole*, I believe you can calculate age based on the size discrepancies featured in the photographs provided.

Is the USS still around today or did it collapse into smaller states as the USSR did?
It is still around.
Well, sort of.

How long was dean president?
8 years.

When did the USA become the UZA?
Some time after 2003.

———

Thank you for the questions everyone, please do have a safe evening. A new year has begun, spoil yourself and your loved ones whenever the opportunity presents itself. As a machine once said, Toodle-oo!

———

Bonus Cornerfolk Q&A

What are the heights of the cornerfolk?
It ranges from 3 inches to 10 meters, though there have been much larger.

Are Corner Folk present worldwide?
Yes.

Whats the earliest sighting/recording of the cornerfolk?
Prehistory.

Do you know the person Riley Tillon is based on?
Yes.

How long have cornerfolk been around?
Too long.

1. Have you ever interacted with your inspiration?
2. Can we trust you that episode 1 is real?
1. Yes.
2. No.

Do you plan on making more Cornerfolk videos in the near future?

Yes.
